Dear Ms Walli:

Re: EB-2008-0235 London Hydro Inc. – 2009 Electricity Distribution Rate Application

We are counsel to the Consumers Council of Canada ("CCC").

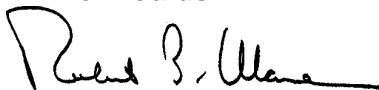

We are in receipt of Mr. Buonaguro's letter of June 2, 2009, in which he provides the comments of the Vulnerable Energy Consumers Coalition.

The CCC agrees that no oral hearing is required in the matter and that written submissions should be sufficient for the Board to make its decision.

We submit that London should be required to file its Argument-in-Chief first, followed by submissions of the intervenors.

Yours very truly,

WeirFoulds LLP
