NOTICE OF APPLICATION AND HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE

Horizon Utilities Corporation

Horizon Utilities Corporation (“Horizon”) has applied to the Ontario Energy Board (the “Board”) for permission to decrease its delivery charges beginning January 1, 2012. The application was filed on October 13, 2011 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Schedule B), under the Board’s guidelines for 3rd Generation Incentive Regulation Mechanism which provides for a mechanistic and formulaic adjustment to distribution rates between cost of service applications. Horizon’s application also includes a request to recover the impact of lost revenues associated with various conservation initiatives and the disposition of account 1562.

Delivery charges are one of four regular items on Residential and General Service customers’ electric bills and vary depending on the amount of electricity consumed. If the application is fully approved, the monthly bill for a Residential customer who consumes 800 kWh per month would decrease by about \$3.02. The monthly bill for a General Service customer consuming 2000 kWh per month and having a monthly demand of less than 50 kW would decrease by about \$8.55. The proposed changes to the Delivery charge are separate from other potential changes to the electricity bills.

The Board has assigned the application file number EB-2011-0172. The Board’s decision on this application may have an effect on all of Horizon’s customers.
