## **NOTICE OF APPLICATION AND HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE**

### **Veridian Connections Inc.**

Veridian Connections Inc. (“Veridian”) has applied to the Ontario Energy Board (the “Board”) for permission to change its delivery charges beginning May 1, 2012. Veridian has two rate zones. One is for the Veridian Main service area and the other is for the Gravenhurst service area. This application pertains to both service areas. The application was filed on October 14, 2011 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15 (Schedule B), under the Board’s guidelines for 3<sup>rd</sup> Generation Incentive Regulation Mechanism which provides for a mechanistic and formulaic adjustment to distribution rates between cost of service applications. Veridian’s application also includes a request to recover the impact of lost revenues associated with various conservation initiatives.

Delivery charges are one of four regular items on Residential and General Service customer’s electric bills and vary depending on the amount of electricity consumed. If the application is fully approved, the monthly bill for a Residential customer who consumes 800 kWh per month would increase by about \$1.20 in the Main service area and decrease about \$1.18 for customers in the Gravenhurst service area. The monthly bill for a General Service customer consuming 2,000 kWh per month and having a monthly demand of less than 50 kW would increase by about \$4.43 in the Main service area and decrease about \$6.74 for customers in the Gravenhurst service area. The proposed changes to the Delivery charge are separate from other potential changes to the electricity bills.
