Dear Ms. Walli:

Re: London Hydro Inc. 2012, 3GIRM Rate Application (EB-2011-0181)

London Hydro is in receipt of the Board's Decision and Order, received on April 4th, 2012 at 4:15PM.

Included in the Board Order is the requirement for London Hydro to file a draft Rate Order to the Board and Interveners within 7 days of the issuance of the Decision and Order. The issuance of the Board Order was unexpected for April 4th, and although London Hydro is attempting to secure the additional resources to assist with the preparation of the draft Rate Order, this is difficult to do so with the Easter Holidays falling within the filing issuance time frame of 7 days.

London Hydro is making every reasonable effort to expedite the completion of the 2012 rate application draft Rate Order. However, in consideration of both allowing for basically 2 business days to complete the draft Rate Order, and the complexity of the directions as contained in the Board's Decision and Order, London Hydro respectfully requests for the extension of the filing deadline. Our request is for a filing due date for the draft Rate Order of Monday April 16th, 2012. This would permit London Hydro the required time to provide for an appropriate draft Rate Filing.

Yours truly,
