Re: Toronto-Hydro Electric System Limited (THESL)
2012, 2013, 2014 Electricity Distribution Rates - IRM Framework
Board File No. EB-2012-0064

Dear Ms. Walli:

I am writing pursuant to the Board's Notice of Application and Hearing dated June 27, 2012 regarding the above proceeding to request intervenor status.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed.

AMPCO's interest in the Board's regulation of local distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

In the current application, AMPCO is also interested in THESL's proposal regarding ICM projects for a three-year period, severable into three successive one-year rate periods, each with its own rate adder.

Costs

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor cost awards in other OEB proceedings.
