Re: Review of Cost Allocation Policy for Unmetered Loads Board File No. EB-2012-0383

Dear Ms. Walli:

The EDA is interested in participating in this review of cost allocation issues for unmetered loads such as street lights and sentinel lights because we would like to assist in addressing the long standing issues raised by distributors and the Association of Municipalities of Ontario (AMO) regarding the current cost allocation for street lighting.

The EDA would like to nominate Maurice Tucci, Director, Regulatory & Technical Policy to participate in the Unmetered Loads Working Group (ULWG). Mr. Tucci has extensive experience in the application of costing principles and has participated in various OEB stakeholder reviews on generic issues. Mr. Tucci will also be able to obtain input on key issues during the review from the EDA's Regulatory Council and Operations Council.

The EDA would also like support the nominations of Jane Scott from Hydro Ottawa and Jamie Gribbon from Horizon as distribution representatives on the ULWG.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Teresa Sarkesian', written over a light blue horizontal line.

Teresa Sarkesian
Vice President
Policy and Government Affairs
