October 26, 2012

Ms. Kirsten Walli, Secretary  
Ontario Energy Board  
Suite 2700, 2300 Yonge Street  
P.O. Box 2319  
Toronto, ON M4P 1E4

Dear Ms. Walli:

**EB-2012-0301 – OEB Revised Proposed Amendments to the Distribution System Code – Hydro One Comments on Timelines for Applicants of Large Embedded Generation Facilities**

Hydro One believes that the revised proposed amendments are in the best interest of Transmitters, Distributors and large generation proponents, and that they will contribute to an effective and efficient connection application process.

As for Hydro One's proposal to place a timeline on proponents to submit all necessary information for the System Impact Assessment, Hydro One accepts that this was not in scope for this proceeding. Hydro One will continue to work with proponents so that they know to submit all required information to allow Hydro One to apply for the System Impact Assessment in a timely manner. Should this issue prove to be problematic, Hydro One will approach the Board in the future.

Sincerely,
