Dear Mr. Keizer,

The Board has considered your letter dated Friday January 25, 2013, in which you request additional time for the filing of interrogatories on the “non-financial information” originally filed by RES Canada Transmission LP (“RES”) in confidence.

The same day your letter was received, counsel for RES filed correspondence with the Board indicating that RES proposes to continue to rely on the non-financial information as part of its application and acknowledges and accepts that the Board will place the exhibits on the public record of this proceeding. This letter was copied to all parties, effectively giving notice that RES acknowledged that access to the information was no longer limited to external counsel and consultants who had signed the Board’s Declaration and Undertaking. The Board has now placed the information on the record as part of the RES application (available on the Board’s website on the East-West Tie page).

The Board notes that the amount of previously confidential material now on the record is quite limited. The information has already been available on request to external counsel and consultants. It is the Board’s view that there is sufficient time for those who have not yet seen the material to review it and prepare interrogatories. The Board will maintain the current date of January 30, 2013 for the filing of all interrogatories.

Yours truly,

Original signed by

Kirsten Walli,
Board Secretary
