Dear Ms. Walli:

**Re: Environmental Defence –Toronto Hydro Confidentiality Request  
EB-2012-0064 – Toronto Hydro-Electric System Ltd (“THESL”) 2012-2014  
Rates**

We are writing on behalf of Environmental Defence to respond to the letter from THESL dated February 22, 2013 requesting confidential treatment of Appendix C of its response to Undertaking J6.6.

The relevant material is a table listing yearly usage, CDM, and DG data for the busses at THESL's stations. We submit that THESL has not established, as required by the *Practice Direction On Confidential Filings*, that the disclosure of this yearly bus-level data would result in potential harm or would reveal sensitive commercial information.

However, to expedite the release of information and promote transparency, Environmental Defence requests that THESL provide the data in Appendix C by station, and not by bus. The station-level data cannot be said to be in any way confidential and is sufficient from the perspective of Environmental Defence.

Yours truly,

Kent Elson
