Dear Ms. Walli:

**Re: Toronto Hydro-Electric System Limited (“THESL”)
OEB File No. EB-2012-0064
Submission Date for Draft Rate Order (“DRO”)**

THESL writes in respect of the above-noted matter.

In its Partial Decision and Order, dated April 2, 2013 (the “Decision”), the Ontario Energy Board (“OEB”) ordered THESL to file a DRO and a proposed Tariff of Rates and Charges by April 9th. THESL requests the OEB’s indulgence, allowing it to file these materials by Friday, April 12th, along with a corresponding adjustment of the dates for intervenor and Staff comments and for THESL’s response.

As the OEB is aware, the Decision requires that THESL file ICM models for 2012 and 2013 on an in-service basis. THESL must therefore revisit the job-level details for each of the approved ICM segments in order to produce the level of detail required by the ICM models and worksheets. The requested indulgence is necessary to allow for this process to take place.

As part of the DRO, THESL intends to propose an implementation date of June 1, 2013, which will entail additional revisions to the rate riders and supporting documents. Consequently, THESL expects that its proposed adjustments to the schedule will not prejudice any party.

Please do not hesitate to contact me if you have any questions.

Yours truly,
