I say NO NO NO to a increase asked for by Embridge . I am on a fixed pension that will not be increased by 40% nor by 5% to cover this . I understand they are asking for the increase to cover up their mistake of not forecasting the gas they required for the winter supply. Again NO if I make a mistake I have to suck it up , I cant run to my pension and ask for more can I. I am running out of money with the greed and high cost of Gasoline, HYDRO , and now heating gas.

**SO NO TO EMBRIDGE PRICE INCREASE**
