Dear Ms. Walli:

**Re: Board File No. EB - 2012- 0383  
Proposal to Amend Distribution System Code – Minimum Requirements to be Included in  
Distributors Conditions of Service in Relation to Unmetered Loads**

The Electricity Distributors Association (EDA) is the voice of Ontario's local distribution companies (LDCs). The EDA represents the interests of 75 publicly and privately owned LDCs in Ontario.

The EDA has no concerns about the Ontario Energy Board's proposal to amend the Distribution System Code (DSC) that would require distributors to include the proposed information in their Conditions of Service in relation to unmetered load customers effective January 1, 2015.

Sincerely,

Teresa Sarkesian  
Vice President, Policy and Government Affairs
