

June 20, 2014

VIA COURIER, EMAIL, RESS

Ms. Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, ON
M4P 1E4

Dear Ms. Walli:

**Re: EB-2011-0140: East-West Tie Line Designation
Monthly Report June 20, 2014**

Enclosed for filing is the monthly report for Upper Canada Transmission, Inc. ("NextBridge"). Please note that the Current Line List indicating Date Initial Landowner Notification Completed found under Schedule A has been provided in a redacted format. An un-redacted version will be provided under a separate cover.

This submission has been filed through RESS this afternoon.

Yours truly,

(Original Signed)

Tania Persad
Senior Legal Counsel, Enbridge Gas Distribution Inc.

ONTARIO ENERGY BOARD

IN THE MATTER OF sections 70 and 78 of the *Ontario Energy Board Act, 1998*;

AND IN THE MATTER OF a Board-initiated proceeding to designate an electricity transmitter to undertake development work for a new electricity transmission line between Northeast and Northwest Ontario: the East-West Tie Line.

**UPPER CANADA TRANSMISSION, INC.
(d/b/a NextBridge Infrastructure)**

Monthly Report

June 20, 2014

1. By the *Decision and Order* dated August 7, 2013 (Decision), the Ontario Energy Board (OEB or Board) decided that the designated transmitter for the development phase of the proposed East-West Tie Line (EWT Project) is NextBridge Infrastructure (NextBridge).
2. In accordance with Ordering Paragraph 2 (page 42) of the Decision and the Board's September 26, 2013 *Decision and Order regarding Reporting by Designated Transmitter*, NextBridge provides this monthly report. This report reflects the financial status of development work on the EWT Project through May 31, 2014. Other aspects of this report are current as of the close of business on the last business day prior to the filing date.
3. This report is organized as follows:
 - (a) A summary report on overall EWT Project progress.
 - (b) A cost summary providing details for each cost category included in NextBridge's Board approved development cost budget of: i) actual costs to date; ii) percentage of budgeted costs spent to date; iii) updated budget forecast (if applicable); and iv) forecast variance. Reasons for any forecast

variance and associated mitigating measures for negative forecast variances are also provided.

- (c) A summary of the status of NextBridge's Board approved development milestones, indicating those that are complete and the status (i.e. on schedule, ahead of schedule or delay/potential delay) of those in progress. If any delay or potential delay in achievement of any of the milestones has been identified, the reasons for the delay, the magnitude and impact of the delay on the broader development schedule and cost, and mitigating steps that have been or will be taken, are reviewed.
- (d) A summary of risks and issues that have arisen during development work, including discussion of potential impact of any such developments on schedule, cost or scope, and discussion of options for mitigating or eliminating the risk or issue. This section also provides an update on any previously identified risks or issues.

Overall Project Progress

- 4. Overall during this period, work towards all milestones continued to progress and the EWT Project is on schedule.
- 5. In respect of engineering work:
 - (a) detailed engineering of the lattice tower structures in support of the fabrication and testing of the prototypes is in progress and on schedule; and
 - (b) surveying additional LIDAR collection and mobilization for geotechnical testing efforts have commenced.
- 6. In respect of route selection, land/ROW acquisition and community/municipal consultation activities, discussions with landowners, permitting agencies and other stakeholders have continued.
 - (a) Activities within the community/municipal consultation area included:
 - (i) continued planning of Round Two public open houses tentatively scheduled for this summer in the EWT Project area and continuation of notification material preparation; and
 - (ii) further interactions with Dorion Township Council in relation to a Deputation to Township Council dated May 6, 2014 by a Dorion

area citizens group proposing alternative routes for consideration and a Dorion Township Council resolution dated May 20, 2014 seeking to prohibit new transmission infrastructure within the township.

- (b) Activities in respect of route selection, land/ROW acquisition included:
 - (i) Commencement of discussions with all landowners along both the Reference Route and alternate routes still under consideration in accordance with the revised target date for milestone 12;
 - (ii) continued engagement and outreach with landowners potentially directly affected along the Reference Route and alternate routes still under consideration;
 - (iii) continued consultation with landowners (including corporate landowners, government ministries and local municipalities), Crown disposition and claim holders in support of obtaining consent for geotechnical studies and environmental assessment activity;
 - (iv) continued response to landowner queries as received, including queries in connection with the Terms of Reference (ToR), current routes under consideration, the Land Acquisition program, and the EWT Project in general; and
 - (v) development and finalization of the Forms of Agreement to be utilized for land acquisition purposes.

- 7. In respect of Aboriginal engagement, consultation and participation, activities included:
 - (a) ongoing engagement activities with the 18 identified First Nation and Métis communities;
 - (b) meeting with Batchewana First Nation on May 26th to introduce the EWT Project and learn more about the community's consultation needs. A follow-up meeting occurred on June 12th to discuss Batchewana's consultation protocol in-depth; and
 - (c) preliminary consultation meetings with the leadership and staff of the Bankushwada group of First Nations (Fort William, Red Rock Indian Band, Pays Plat, Pic Mobert, Ojibways of Pic River and Michipicoten). The development of a work plan for a consolidated consultation effort is underway. A work plan to complete the negotiation of definitive

documentation regarding economic participation is also under development.

8. In respect of environmental assessment activities, work included:
 - (a) environmental site assessment field staff mobilization and data collection in the EWT Project area;
 - (b) submission of amended ToR to the Ministry of Environment on May 22, 2014 addressing comments received related to alternatives assessment;
 - (c) continued consultation with the Ministries of Environment and Natural Resources in support of the environmental assessment (EA);
 - (d) meetings with numerous interested parties in connection with the collection of socioeconomic data for the EA;
 - (e) continued discussions with the Ministry of Natural Resources (MNR) to discuss data collected to date, data requested from MNR and detailed work plans; and
 - (f) coordination of efforts with engineering, land and aboriginal teams regarding the geotechnical drilling to obtain the necessary approvals from MNR, private land owners and aboriginal communities.

9. Additional general updates for the reporting period include:
 - (a) Steven Zucchet, Borealis EWT Inc.'s representative on the NextBridge Board of Directors has been replaced by Katherine Hammond. Ms. Hammond, who is Vice President, Legal at Borealis, currently sits on the Aboriginal Advisory Board for NextBridge. Ms. Hammond's biographical summary was included in NextBridge's Application for Designation at Appendix A3.
 - (b) NextBridge continues to engage in dialogue with the Ontario Independent Electricity System Operator regarding preparation of the system impact assessment (SIA). Once the first draft of the SIA study is completed (currently anticipated July 2014), NextBridge will be in a position to coordinate with Hydro One Networks Inc. to complete the construction cost estimate for interconnection of the EWT Project.

Cost Summary

10. Table 1, below, details for each cost category included in NextBridge's Board approved development cost budget: i) actual costs to date; ii) percentage of

budgeted costs spent to date; iii) updated budget forecast (if applicable); and iv) forecast variance.

11. There are no development cost forecast changes arising from work to date beyond that previously reported.

Table 1: Budgeted Costs Status

Cost Category	PROJECT TO DATE		TOTAL PROJECT ESTIMATE			
	Actual ¹	% of total budget	Forecast	Budget ²	Variance \$	Variance %
Budgeted						
Engineering, Design and Procurement Activity	\$2,280,690	21.6%	\$10,553,292	\$10,553,292	-	0%
Permitting and Licensing	-	0.0%	47,320	47,320	-	0%
Environmental and Regulatory Approvals	1,510,042	42.0%	3,592,680	3,592,680	-	0%
Land Rights (Acquisitions or options)	1,021,959	51.3%	1,746,000	1,991,000	245,000 ³	12.3%
First Nation and Métis Consultation	675,842	39.2%	1,724,000	1,724,000	-	0%
Other Consultation	478,954	96.6%	741,001	496,001	(245,000) ³	(49.4)%
Regulatory (legal support, rate case and LTC filings)	544,594	55.3%	985,000	985,000	-	0%
Interconnection Studies	46,322	25.9%	179,000	179,000	-	0%
Project Management	907,805	69.8%	1,300,000	1,300,000	-	0%
Contingency (Engineering, Design and Procurement)	-	0.0%	1,529,708	1,529,708	-	0%
Total	\$7,466,208	33.3%	\$22,398,001	\$22,398,001	-	0%

¹ "Actual" refers to actual costs plus estimated accruals.

² This total refers to the Development Phase budgeted amount as approved by the Board in file EB-2011-0140 Phase 2 Decision and Order dated August 7, 2013.

³ As reported in the EWT Project March 21, 2014 Monthly Report.

12. Table 2, below, details costs to date not included in NextBridge’s Board approved development cost budget. This table includes two categories of cost expressly excluded from the development cost budget filed by NextBridge: First Nation and Métis land acquisition costs and First Nation and Métis participation costs (see NextBridge Response to Interrogatory 26 to all applicants, attachment 1).
13. The “Other” category on Table 2 records unbudgeted costs that are, to date, for the most part related to the Notice of Appeal filed by Pic River in the Ontario Divisional Court in respect of the Decision.

Table 2: Unbudgeted Costs

Cost Category	Current month project to date Actual ⁴	Prior month project to date Actual ⁴
Not Budgeted		
First Nation and Métis Land Acquisition	\$ 7,332	\$ -
First Nation and Métis Participation	766,218	409,350
Other Costs Not included in Budgeted Categories	224,862	134,867
Carrying Cost	12,881	7,017
Taxes and Duties	-	-
Total Not Budgeted	\$ 1,011,293	\$ 551,234

Development Milestone Summary

14. Table 3, below, provides a summary of the status of NextBridge’s Board approved development milestones, indicating those that are complete and the status of those in progress (i.e. on schedule, ahead of schedule or delay/potential delay).
15. For each of the Board approved milestones, Table 3 provides:

⁴ “Actual” refers to actual costs plus estimated accruals.

- (a) The Board approved milestone date.
 - (b) The status of those milestones due within 3 months of the reporting date.
 - (c) A “revised forecast date” if applicable, indicating NextBridge’s current forecast of the date for completion of the relevant milestone if the current forecast differs from the Board approved date.
16. NextBridge has focussed, for the purposes of this reporting, on the status of those milestones due within 3 months of the reporting date in order to highlight the development activities in respect of which efforts are primarily focussed, and which are of most immediate relevance to project progress and status. At this stage in project development, but for this approach all milestones would indicate “On schedule”, but such information would be of limited use to the Board given that the relevant milestones are currently far out in time. As the development work progresses, the status column will be completed for more of the milestones.
17. NextBridge does review its development schedule on a monthly basis, in conjunction with preparation of these monthly reports, and should an issue or risk regarding a milestone that is scheduled beyond 3 months from the reporting date be identified, NextBridge will nonetheless report on that issue or risk, and include an appropriate status indication and revised forecast date in Table 3.

Table 3: Milestone Progress and Status

Engineering Milestones

	Milestone	Board Approved Date	Status	Revised Forecast Date
1	Initiate engineering	13 Sep 2013	Completed	
2	Sign contract for engineering	31 Oct 2013	Completed	
3	Finalize design criteria for conductor and structure	31 Jan 2014	Completed	
4	Complete conductor optimization study	7 Mar 2014	Completed	
5	File request for a System Impact Assessment (SIA) with the IESO	12 Mar 2014	Completed	
6	Status report on progress toward finalization of structure choice	31 Mar 2014	Completed	
7	Obtain senior management approval of the structure configuration proposal	1 July 2014	On schedule	
8	Complete aerial surveys	14 Oct 2014		
9	Receive final SIA from the IESO	21 Nov 2014		

Route Selection, Land/ROW Acquisition and Community/Municipal Consultation Milestones

	Milestone	Board Approved Date	Status	Revised Forecast Date
10	Prepare list of landowners along the ROW	10 Oct 2013	Completed	
11	Complete design of Landowner, Community and Municipal Consultation Plan	1 Nov 2013	Completed	
12	Commence negotiations or discussions with all landowners and permitting agencies	25 Nov 2013	Completed	May 30, 2014 as per EWT Project April 22, 2014 Monthly Report
13	Finalize proposed route and obtain senior management approval	1 Jul 2014	On schedule	

Aboriginal Engagement, Consultation and Participation Milestones

	Milestone	Board Approved Date	Status	Revised Forecast Date
14	Send introductory correspondence to aboriginal communities	30 Aug 2013	Completed	
15	Initial meeting with Ministry of Energy regarding the MOU for delegation	15 Sept 2013	Completed	
16	Complete initial/introductory contact with all aboriginal communities identified by the Ministry of Energy	30 Sept 2013	Completed	
17	Sign MOU with Ministry of Energy regarding the delegation	5 Nov 2013	Completed	
18	Complete design of First Nations and Métis Participation Plan with community input	2 Jan 2014	Completed	
19	Complete design of First Nations and Métis Consultation Plan with community input	2 Jan 2014	Completed	

Environmental Assessment (Provincial) Milestones

	Milestone	Board Approved Date	Status	Revised Forecast Date
20	Consult with environmental agencies (Ministry of Environment, Ministry of Natural Resources, Parks Canada and Ontario Parks)	10 Oct 2013	Completed	
21	Issue notice of draft Terms of Reference (ToR) available for review	16 Jan 2014	Completed	
22	File Environmental Assessment ToR	28 Feb 2014	Completed	
23	Initiate wildlife, aquatics and early season vegetation assessments	1 May 2014	Completed	May 20, 2014 - as per EWT Project April 22, 2014 Monthly Report
24	Approval of Environmental Assessment ToR	3 Jul 2014	On schedule	
25	Complete Environmental Assessment Consultation Report	27 Jan 2015		
26	Submit Environmental Assessment to Ministry of Environment	27 Jan 2015		

Leave to Construct Milestone

	Milestone	Board Approved Date	Status	Revised Forecast Date
27	Submit Leave to Construct (LTC) application	28 Jan 2015		

18. In respect of the milestone achieved during this reporting period:

(a) **Milestone 12: Commence negotiations or discussions with all landowners and permitting agencies.** The initiation of consultation has been completed. Notification Materials were sent to the address contained in Tax Assessment Roll numbers of all landowners along the proposed Reference Route and alternate routes still under consideration. Attached at Schedule A is a current line list which provides landowner-specific notification information as proof of completion of the landowner engagement component of the milestone. In accordance with Rule 9A of the Board’s Rules of Practice and Procedure, the names and municipal addresses of the landowners have been removed. A non-redacted version of the list will be filed with the Board Secretary. Please note that the client ID numbers listed in the current line list do not correlate with the item numbers included in the Mailing Line List included at Schedule D to the EWT Project December 20, 2013 Monthly Report. Although the PIN numbers correlate, the line list appended to this Monthly Report represents an updated and more comprehensive line list for the EWT Project and should be used for reference purposes going forward. While components of landowner notification materials were previously filed as part of the November 21, 2013, January 22, and April 22, 2014 EWT Project Monthly Reports, for ease of reference and for the convenience of the Board, please find attached at Schedule B a complete set of the suite of notification materials provided as appropriate in initiating negotiations and discussions with landowners.

19. In respect of the outstanding milestones, activity is currently on track to achieve the relevant milestones in accordance with the Board approved target dates.

Issues/Risks/Mitigation Summary

20. This section of NextBridge’s monthly report provides a summary of risks and issues that have arisen during development work, including discussion on potential impact of any such developments on schedule, cost or scope, and of options for mitigating or eliminating the risk or issue.

21. There are no risks or issues that have arisen during development work to date in respect of which NextBridge has identified an impact on its development schedule, cost or scope of work.

RE: Proposed NextBridge Infrastructure New East West Tie Transmission Project

Dear [FirstName LastName],

A new electric power transmission line, anticipated to generally parallel the existing East West Tie between Thunder Bay and Wawa, Ontario, is being developed to maintain a reliable, long-term supply of electricity in northwestern Ontario.

NextBridge Infrastructure (NextBridge), a partnership between NextEra Energy Canada, Enbridge Inc., and Borealis Infrastructure, has initiated the Terms of Reference for the Environmental Assessment for a new 400 kilometre, double-circuit 230 kilovolt transmission line from Thunder Bay to Wawa, Ontario. The new East West Tie is anticipated to generally parallel the existing East West Tie with possible alternatives to avoid potentially sensitive features.

The enclosed notice and newsletter provide additional information about the project. We ask that you review this information, visit the project web site at www.nextbridge.ca, and consider attending one of our upcoming Open Houses to get more information about the project. We are committed to engaging community members and stakeholders throughout the process and invite you to contact us if you have questions, comments, require further information, or have information that would be helpful for project planning. Information about the Open Houses is included in the attached newsletter and notice.

You are receiving this letter because you have been identified as a potentially impacted resident, occupant, landowner, or other stakeholder located on or near the proposed project. If your land has been identified as potentially impacted by the proposed project, a NextBridge representative will be contacting you within the next few weeks to further discuss this project. If you would like to contact us directly, please do so at the number or email below.

We Want to Hear From You

We would like to thank you for participating in our consultation program for this project. Your input is important to us. If you have any questions or concerns, or if you require further information regarding this project, please call our toll-free phone line at 1-888-767-3006 or email info@nextbridge.ca and leave your contact information or visit our project web site at www.nextbridge.ca.

Sincerely,

Cindy Tindell, Director
NextBridge Infrastructure

Si vous désirez ces informations en français, s'il vous plaît contactez René C. Viau à 647-700-3028 ou renev@standardland.com.

Stakeholder Consultation

Members of the community, public, landowners, stakeholder groups, government agencies, and other interested persons are encouraged to participate in the planning process. The two key areas that NextBridge is currently focusing on are route identification and the development of the Terms of Reference. Meetings will be held with various interested groups and persons along the proposed routes. In addition, Open Houses will be held throughout the planning process.

The first round of Open Houses will be held at following locations from 4pm to 8pm:

- **THUNDER BAY – December 2:** Current River Community Centre
- **NIPIGON – December 3:** Nipigon Legion Branch #32
- **MARATHON – December 4:** Marathon High School
- **WAWA – December 5:** Michipicoten Memorial Community Centre
- **WHITE RIVER – December 10:** Royal Canadian Legion Branch
- **TERRACE BAY – December 11:** Terrace Bay Cultural Centre

Information presented at the Open Houses will be available on the project web site at www.nextbridge.ca

First Nations and Métis Consultation

A dedicated consultation process has been established for First Nation and Métis communities located in proximity to the project. Members of First Nations and Métis communities are also welcome to attend the Open Houses listed above.

Getting Involved

We would like to thank you for your ongoing participation in our consultation program for this project. Your input is important to us. If you have any questions or concerns, or if you require further information regarding this project, please contact:

Oliver Romaniuk, Project Manager
NextBridge Infrastructure
390 Bay Street, Suite 1720
Toronto, ON M5H 2Y2
Email: info@nextbridge.ca
Fax: 416-364-2533
Project Hotline: 1-888-767-3006

CURRENT PROJECT SCHEDULE

PAST	
2010	Government of Ontario identifies the project as a Priority Project
2011	Minister of Energy asks the Ontario Energy Board (OEB) to undertake a designation process to select a transmitter to develop the project
2012	OEB directs bidders to the reference corridor and a proposed in-service date
Aug 2013	NextBridge selected as the designated transmitter to complete development work related to the project

CURRENT AND UPCOMING	
Nov 2013	Notice of Commencement of Terms of Reference (TOR)
Dec 2013	Open Houses Round One
Feb 2014	Submission of TOR
July 2014	Anticipated TOR Approval and Environmental Assessment (EA) Commencement
July 2014	Open Houses Round Two
Oct 2014	Open Houses Round Three
Jan 2015	EA submission to Ministry of the Environment (MOE)
Jan 2015	Submit Leave to Construct Application to OEB
Dec 2015	MOE Decision on EA

Additional Resources

We encourage you to become as informed as possible about this project. Please visit the web sites below for additional information about energy and environmental decision making in Ontario and about the new East-West Tie.

If you received this newsletter directly from NextBridge you are on our contact list for this project and we will continue sending you project information.

Newsletter

EAST-WEST TIE TRANSMISSION PROJECT

Connecting Ontario's Northwest

NextBridge Infrastructure wants to Connect the North with a New East-West Tie Transmission Line

The new East-West Tie was identified as a priority electric power transmission project by the Government of Ontario. The new line is anticipated to generally parallel the existing East-West Tie between Thunder Bay and Wawa, Ontario.

NextBridge Infrastructure (NextBridge), the proponent for the project, is committed to consulting with all interested community members and stakeholders in a clear and mutually respectful manner throughout the life of the project.

This is the first of several newsletters that will be distributed during the course of the project. We invite you to review the information contained within and contact us if you require further information, have comments or questions, or have information that is important for project planning.

We look forward to hearing from you and meeting you at one of the Open Houses planned for the project.

Who We Are

NextBridge draws on the experience and resources of three infrastructure leaders – NextEra Energy Canada, Enbridge Inc., and Borealis Infrastructure – in our plan for development, financing, construction, operation, and maintenance of the project, together with a well-aligned interest in owning and operating the new East-West Tie over the course of its useful life. NextBridge is committed to increasing the competitiveness and cost effectiveness of providing transmission service to the ratepayers of Ontario.

What's Inside?

- Need for Supply in Northwestern Ontario
- Project Details
- Environmental Assessment Process
- Other Approvals
- Easements and Access to Land
- Consultation Activities
- Getting Involved
- Current Project Schedule
- Additional Resources

The Need for Supply in Northwestern Ontario

The Ontario Power Authority (OPA), the agency responsible for long-term electricity planning in the province, has recommended the new East-West Tie to ensure the long-term reliability of the electricity supply in northwestern Ontario, and has specified the timing and scope of this project.

Industrial activities in northwestern Ontario, particularly in the mining sector, are expected to drive strong electricity demand growth in the coming decade. Coupled with a decrease in supply in the area, the OPA forecasts a need for around 500 megawatts (MW) of new supply in northwestern Ontario by 2018.

The identified supply needs can be met with additional transmission or generation. The OPA analyzed these alternatives and recommended expansion of the East-West Tie based on technical, economic, and other considerations.

Project Details

The project will consist of an approximately 400 km double-circuit 230 kilovolt (kV) transmission line generally paralleling the existing double-circuit 230 kV transmission corridor connecting the Wawa Transformer Station (TS) to the Lakehead TS near Thunder Bay. The project will also require new and improved access roads and temporary laydown and work areas. The targeted in-service date is the first half of 2018.

A Reference Route has been identified along with possible alternatives to avoid potentially sensitive features. NextBridge will endeavour to select the route with the least overall impacts. To identify the final route, we will be considering the valuable feedback from all potentially affected community members, stakeholders, landowners, tenants, First Nations and Métis communities along all proposed routes. During the route selection process, we will consider factors such as hunting, trap lines, gathering activities, bird nesting sites, waterways, tourism, agricultural operations, environmental features, and impacts to residents and businesses. It is important to note that all routes are considered viable options at this time; however, only one transmission line will be built.

Other Approvals

In advance of construction, the project will also require:

- Leave to Construct approval from the Ontario Energy Board.
- Permits from provincial agencies, conservation authorities and municipalities.
- Federal review and/or permits may be required in some areas where federal lands may be impacted.

The Environmental Assessment Process

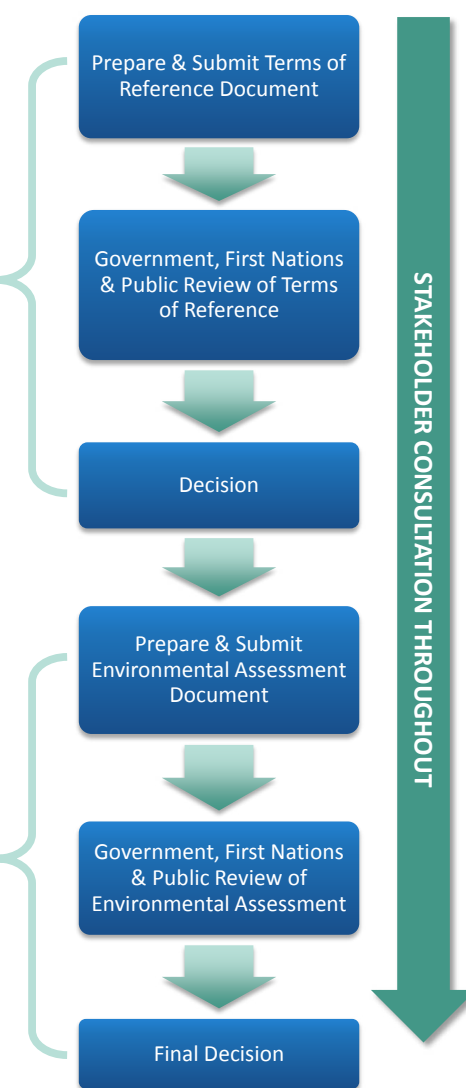

NextBridge has initiated the Terms of Reference (TOR) for the Environmental Assessment (EA) in accordance with Ontario's *Environmental Assessment Act*. During the EA, NextBridge will conduct environmental studies, and meet with agencies, community representatives, First Nations and Métis communities, and members of the public to determine the potential positive and negative impacts of the project on the people, places, businesses, economy and natural environment in the study area.

The first step in the EA process is the preparation of a TOR. The TOR outlines the work plan NextBridge will follow to address the requirements of the *Environmental Assessment Act*. If approved by the Minister of the Environment, the TOR will provide the framework for the second step in the process, the preparation of the EA.

STEP 1
Terms of Reference

STEP 2
Environmental Assessment Study

Overview of Environmental Assessment Process

Easements and Access to Land

NextBridge will require easement interests to accommodate the approximately 56 metre (184 foot) permanent right-of-way required for the installation of the new line. The majority of activity will be contained within the permanent right-of-way however, in some instances, additional work space and access may be required for construction.

If your land has been identified as potentially impacted by the proposed project, a NextBridge representative will be contacting you within the next few weeks to further discuss this project.

In order to properly assess potential impacts of the project, our team will need to conduct surveys and studies, and access to individual properties may be required. Access to land will be discussed with landowners along the potential routes to conduct these studies. If access to your property is required for study purposes, we will be contacting you. Please note that no property will be accessed without prior notice.

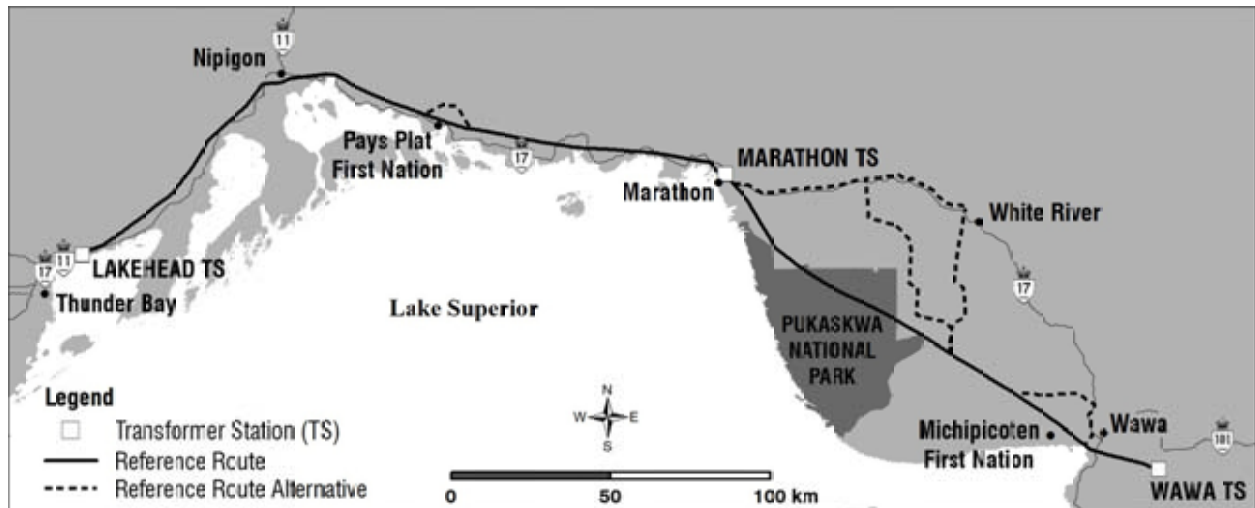

We would be pleased to discuss the project with any interested stakeholders and encourage you to contact us if you have any questions or concerns.

Notice of Commencement of Terms of Reference and Open Houses

New East West Tie Transmission Project

NextBridge Infrastructure

NextBridge Infrastructure (NextBridge) – a partnership between NextEra Energy Canada, Enbridge Inc., and Borealis Infrastructure – has initiated the Terms of Reference for the Environmental Assessment under the *Environmental Assessment Act* to construct an approximately 400 km long, double-circuit 230 kilovolt electric power transmission line from the Lakehead Transformer Station (TS) near Thunder Bay to the Wawa TS near Wawa, Ontario. The line is anticipated to generally parallel the existing double-circuit 230 kV transmission line between these two points with possible alternatives to avoid potentially sensitive features.

The Ontario Power Authority (OPA), the provincial agency responsible for long-term electricity planning, identified the expansion of the transmission system between Wawa and Thunder Bay in order to maintain a reliable, long-term supply of electricity to northwestern Ontario. The new East West Tie was recommended based on forecasted electricity demand and changes to the electricity supply in the area, as well as technical, economic, and other considerations. The new East West Tie was included as a priority project in the Government of Ontario's 2010 Long Term Energy Plan.

NextBridge will require easement interests to accommodate the approximately 56 metre (184 foot) permanent right-of-way required for the installation of the new line and will endeavour to select the route with the least overall impacts. The majority of activity will be contained within the permanent right-of-way, however, in some instances, additional work space and access may be required for construction. To identify the final route, NextBridge will be considering the valuable feedback from potentially affected stakeholders along the proposed routes. During the route selection process, factors such as hunting, trap lines, gathering activities, bird nesting sites, waterways, tourism, agricultural operations, environmental features, and impacts to residents and businesses will be considered. It is important to note that all routes are considered viable alternatives at this time; however, only one transmission line will be built.

The Process

This study will be carried out in accordance with the requirements of the *Environmental Assessment Act*. The first step in the process is the preparation of a Terms of Reference (TOR). The TOR outlines the work plan NextBridge will follow to address the requirements of the *Environmental Assessment Act*. If approved by the Minister of the Environment, the TOR will provide the framework for the second step of the process, the preparation of the Environmental Assessment (EA). Submission of the TOR is anticipated in early 2014 and the EA in early 2015. The target in-service date is the first half of 2018.

Consultation

Members of the community, public, agencies, First Nations and Métis communities, and other interested persons are encouraged to actively participate in the planning process by contacting project staff with questions, comments and by attending Open Houses for the project. Consultation opportunities, such as Open Houses, will be held throughout the planning process and will be advertised through mailings, newspaper notices, and through postings at www.nextbridge.ca.

The first round of Open Houses will provide an opportunity to learn about and provide input on the proposed project, EA process, development of the TOR, studies to be undertaken and route options. A NextBridge project team will be available to discuss the project and answer questions. Additional rounds of Open Houses will be held as the project moves forward.

The first round of Open Houses will be held as follows:

December 2	December 3	December 4	December 5
Thunder Bay	Nipigon	Marathon	Wawa
Current River	Nipigon Legion	Marathon	Michipicoten Memorial
Community Centre	Branch #32	High School	Community Centre
450 Dewe Avenue	102 Fifth Street	14 Hemlo Drive	3 Chris Simon Drive
4pm to 8pm	4pm to 8pm	4pm to 8pm	4pm to 8pm

Information presented at the Open Houses will be made available at www.nextbridge.ca for review and comment.

For further information on the proposed project please contact:

Oliver Romaniuk, Project Manager, NextBridge Infrastructure

390 Bay Street, Suite 1720, Toronto, ON, M5H 2Y2

Phone: 1-888-767-3006

Email: info@nextbridge.ca

Fax: 416-364-2533

www.nextbridge.ca

All personal information included in a submission – such as name, address, telephone number and property location – is collected, maintained and disclosed by the Ministry of the Environment for the purpose of transparency and consultation. The information is collected under the authority of the *Environmental Assessment Act* or is collected and maintained for the purpose of creating a record that is available to the general public as described in s.37 of the *Freedom of Information and Protection of Privacy Act* (FIPPA). Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential. For more information, please contact the Ministry of the Environment's Freedom of Information and Privacy Coordinator at (416) 327-1434.

January 10, 2014

RE: Proposed NextBridge Infrastructure East-West Tie Transmission Project – Draft Terms of Reference Available for Review

Following our consultation activities this past fall, NextBridge Infrastructure (NextBridge) is pleased to provide a draft of the Terms of Reference for the Environmental Assessment for your review and comment. This draft Terms of Reference provides information on the work that will be undertaken to confirm a preferred route and study potential effects of the proposed East-West Tie.

The proposed new East-West Tie is a new high voltage electric power transmission line, anticipated to generally parallel the existing 230 kilovolt transmission line between Thunder Bay and Wawa, Ontario with possible alternatives and minor local refinements to avoid potentially sensitive features. The proposed new 400 kilometre, double-circuit 230 kilovolt transmission line is needed to maintain a reliable, long-term supply of electricity in northwestern Ontario.

The draft Terms of Reference is available for review on the project web site at www.nextbridge.ca. Please provide any comments you may have by February 10, 2014. Comments can be submitted by mail or email to info@nextbridge.ca.

Input received will be considered for inclusion in the final Terms of Reference document which will be submitted to the Ministry of the Environment for formal review. The formal review process will include an opportunity for public and agency review of the final Terms of Reference.

We would like to thank you for your continued participation in our consultation program for this project. Your input is important to us. If you have any questions or concerns, or if you require further information regarding this project, please call our toll-free phone line at 1-888-767-3006 or email info@nextbridge.ca and leave your contact information or visit our project web site at www.nextbridge.ca.

Sincerely,

Cindy Tindell, Director
NextBridge Infrastructure

Notice of Submission of the Terms of Reference New East-West Tie Transmission Project NextBridge Infrastructure

NextBridge Infrastructure (NextBridge) – a partnership between NextEra Energy Canada, Enbridge Inc., and Borealis Infrastructure – has prepared a Terms of Reference for an Individual Environmental Assessment for the new East-West Tie Transmission Project. NextBridge is submitting the Terms of Reference to the Ministry of the Environment as required by the *Environmental Assessment Act*. As part of the submission process, the public, landowners, other stakeholders and First Nations and Métis are encouraged to review the Terms of Reference and submit comments to the Ministry of the Environment.

NextBridge proposes to construct approximately 400 km of new transmission line. The Project will consist of a double-circuit 230 kilovolt (kV) transmission line generally paralleling the existing double-circuit 230 kV transmission corridor connecting the Wawa Transformer Station (TS) to the Lakehead TS near Thunder Bay. Alternative Routes have been identified around federal lands, including two First Nation reserves and Pukaskwa National Park. The Project will also require new and improved access roads and temporary laydown and work areas. The targeted in-service date is the first half of 2018.

Project Rationale

The Ontario Power Authority (OPA), the provincial agency responsible for long-term electricity planning, identified the expansion of the transmission system between Wawa and Thunder Bay in order to maintain a reliable, long-term supply of electricity to northwestern Ontario. The East-West Tie was recommended based on forecasted electricity demand and changes to the electricity supply in the area, as well as technical, economic, and other considerations. The East-West Tie was included as a priority project in the Government of Ontario's 2010 Long Term Energy Plan. The target in-service date is the first half of 2018.

The Environmental Assessment Process

The first step in the Environmental Assessment process is the preparation of a Terms of Reference (ToR). The ToR outlines the work plan NextBridge will follow to address the requirements of the *Environmental Assessment Act*. If approved by the Minister of the Environment, the ToR will provide the framework for the second step of the process, the preparation of the Environmental Assessment (EA).

Terms of Reference Review

The proposed ToR will be available for review beginning February 28, 2014 for a period of 31 days.

The ToR may be accessed on the Project web site at www.nextbridge.ca, and hard copies will be available for review at the following locations in communities throughout the study area:

Municipal Offices

Township of Dorion – 170 Dorion Loop Rd., Dorion
Township of Nipigon – 52 Front St., Nipigon
Town of Marathon – 4 Hemlo Dr., Marathon
Township of Red Rock – 42 Salls St., Red Rock
Township of Schreiber – 204 Alberta St., Schreiber
Municipality of Shuniah – 420 Leslie Ave., Thunder Bay
Township of Terrace Bay – 1 Selkirk Ave., Terrace Bay
City of Thunder Bay – 500 Donald St. E., Thunder Bay
Municipality of Wawa – 40 Broadway Ave., Wawa
Township of White River – 102 Durham St., White River

Ministry of the Environment Offices

Environmental Approvals Branch – 2 St. Clair Ave. W., Floor 12A, Toronto
Thunder Bay District Office – 435 James St. S., Suite 331, Thunder Bay

All personal information included in a submission – such as name, address, telephone number and property location – is collected, maintained and disclosed by the Ministry of the Environment for the purpose of transparency and consultation. The information is collected under the authority of the *Environmental Assessment Act* or is collected and maintained for the purpose of creating a record that is available to the general public as described in s.37 of the *Freedom of Information and Protection of Privacy Act*. Personal information you submit will become part of a public record that is available to the general public unless you request that your personal information remain confidential. For more information, please contact the Project Officer or the Ministry of the Environment's Freedom of Information and Privacy Coordinator at (416) 327-1434.

Public Libraries

Brodie Resource Library (TBPL), 216 Brodie St. S., Thunder Bay
County Park Branch (TBPL), 1020 Dawson Rd., Thunder Bay
Dorion Public Library, 170 Dorion Loop Rd., Dorion
Nipigon Public Library, 52 Front St., Nipigon
Red Rock Public Library, 42 Salls St., Red Rock
Schreiber Public Library, 314 Scotia St., Schreiber
Terrace Bay Public Library, 13 Selkirk Ave., Terrace Bay

NextBridge Infrastructure, 390 Bay St., Suite 1720, Toronto

Submitting Your Comments

Written comments about the Terms of Reference must be submitted by March 31, 2014 to the Ministry of the Environment:

Dave Bell
Special Project Officer
Ministry of the Environment
Environmental Approvals Branch
2 St. Clair Ave. W., Floor 12A
Toronto, ON M4V 1L5
Tel: 416-314-8001
Fax: 416-314-8452
Email: dave.jr.bell@ontario.ca

Comments submitted to the Ministry of the Environment will be forwarded to NextBridge.

For further information on the proposed project please contact:

Michael Power, Project Director, NextBridge Infrastructure
390 Bay St., Suite 1720, Toronto, ON M5H 2Y2
Phone: 1-888-767-3006
Email: info@nextbridge.ca
Fax: 416-364-2533
www.nextbridge.ca

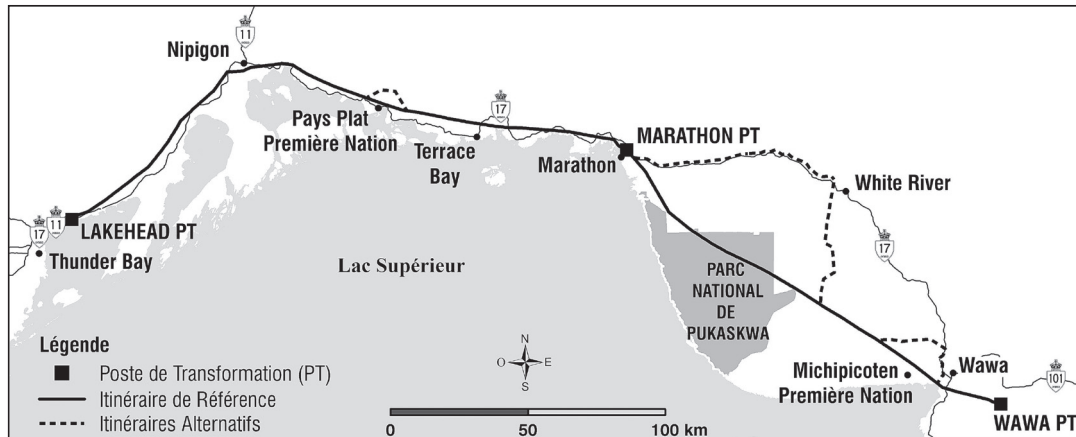

Avis de présentation du mandat

Projet de transmission sur la nouvelle ligne d'interconnexion Est-Ouest

NextBridge Infrastructure

NextBridge Infrastructure (NextBridge), issu d'un partenariat entre NextEra Energy Canada, Enbridge Inc. et Borealis Infrastructure, a préparé le mandat d'une évaluation environnementale individuelle pour le projet de transmission sur la nouvelle ligne d'interconnexion Est-Ouest. Conformément à la *Loi sur les évaluations environnementales*, NextBridge présente le mandat au ministère de l'Environnement. Dans le cadre du processus de présentation, le public, les propriétaires fonciers, les autres intervenants, ainsi que les Premières Nations et les Métis sont encouragés à examiner le mandat et à envoyer leurs commentaires au ministère de l'Environnement.

NextBridge a l'intention de construire une nouvelle ligne de transport d'environ 400 km. Le projet consistera en une ligne de transport à double circuit de 230 kilovolts qui, en général, sera comparable à la ligne de transport à double circuit de 230 kilovolts qui relie actuellement le poste de transformation de Wawa à celui de Lakehead, près de Thunder Bay. D'autres itinéraires contournant les territoires domaniaux, notamment deux réserves des Premières Nations et le parc national du Canada Pukaskwa, ont été définis. De nouvelles routes d'accès améliorées ainsi que des aires de travail et de dépôt de l'équipement seront nécessaires dans le cadre du projet. La date de mise en service prévue se situe dans le premier semestre de 2018.

Justification du projet

Ontario Power Authority (OPA), l'organisme provincial chargé de la planification à long terme de l'électricité, a déterminé que l'expansion du système de transport d'électricité entre Wawa et Thunder Bay était nécessaire pour maintenir un approvisionnement en électricité à long terme stable vers le nord-ouest de l'Ontario. La ligne d'interconnexion Est-Ouest a été recommandée en se basant sur la demande en électricité prévue et sur les changements à l'approvisionnement en électricité dans la région, ainsi que sur des facteurs techniques, économiques et d'autre nature. La ligne d'interconnexion Est-Ouest a été incluse comme projet prioritaire dans le Plan énergétique à long terme du gouvernement de l'Ontario pour 2010. La mise en service pourrait avoir lieu lors du premier semestre de 2018.

Processus d'évaluation environnementale

La première étape du processus d'évaluation environnementale consiste en la préparation d'un mandat. Ce dernier précise le plan de travail qui sera suivi par NextBridge pour respecter les exigences de la *Loi sur les évaluations environnementales*. S'il est approuvé par le ministre de l'Environnement, le mandat fournira le cadre requis pour la deuxième étape du processus, à savoir la préparation de l'évaluation environnementale (EE).

Examen du mandat

Le mandat proposé pourra être examiné pendant une période de 31 jours, à compter du 28 février 2014.

Le mandat peut être consulté sur le site Web du projet, à l'adresse www.nextbridge.ca; des copies papier seront mises à disposition aux fins d'examen dans les collectivités de la zone étudiée, aux endroits suivants :

Bureaux municipaux

Canton de Dorion – 170, route Dorion Loop, Dorion
Canton de Nipigon – 52, rue Front, Nipigon
Ville de Marathon – 4, chemin Hemlo, Marathon
Canton de Red Rock – 42, rue Salls, Red Rock
Canton de Schreiber – 204, rue Alberta, Schreiber
Municipalité de Shuniah – 420, avenue Leslie, Thunder Bay
Canton de Terrace Bay – 1, avenue Selkirk, Terrace Bay
Ville de Thunder Bay – 500, rue Donald Est, Thunder Bay
Municipalité de Wawa – 40, avenue Broadway, Wawa
Canton de White River – 102, rue Durham, White River

Bureaux du ministère de l'Environnement

Division de la planification environnementale – 2, avenue St. Clair Ouest, étage 12A, Toronto

Tous les renseignements personnels inclus dans une soumission, tels que le nom, l'adresse, le numéro de téléphone et l'emplacement de la propriété, sont recueillis, conservés et divulgués par le ministère de l'Environnement à des fins de transparence et de consultation. Ces renseignements sont recueillis en vertu de la *Loi sur les évaluations environnementales* ou sont recueillis et conservés en vue de créer un dossier qui sera mis à la disposition du grand public, tel que le décrit l'article 37 de la *Loi sur l'accès à l'information et la protection de la vie privée*. Les renseignements personnels feront partie d'un dossier public qui sera à la disposition du grand public, sauf si vous demandez qu'ils soient tenus confidentiels. Pour obtenir de plus amples informations, veuillez prendre contact avec l'agent de projet ou le coordonnateur de l'accès à l'information et de la protection de la vie privée au 416 327-1434.

Bureau de district de Thunder Bay – 435, rue James Sud, bureau 331, Thunder Bay

Bibliothèques publiques

Bibliothèque Brodie (TBPL), 216, rue Brodie Sud, Thunder Bay
Division de County Park (TBPL), 1020, route Dawson, Thunder Bay

RE: Proposed NextBridge Infrastructure East-West Tie 230 kV Double Circuit Transmission Line Project

Hello,

A new electric power transmission line, anticipated to generally parallel the existing East West Tie between Thunder Bay and Wawa, Ontario, is being developed to maintain a reliable, long-term supply of electricity in northwestern Ontario.

NextBridge Infrastructure (NextBridge), a partnership between NextEra Energy Canada, Enbridge Inc., and Borealis Infrastructure, has submitted Terms of Reference for Environmental Assessment for a new 400 kilometre, double-circuit 230 kilovolt transmission line that generally parallels an existing double-circuit, 230 kV transmission line corridor connecting the Wawa Transformer Station (TS) to the Lakehead TS near Thunder Bay (with a connection at Marathon TS). You are receiving this letter because you have been identified as a potentially directly affected or adjacent landowner located near the proposed Project.

We have discovered that during our initial identification of potentially impacted parcels that you may not have received our original correspondence, which included;

1. November 2013 Mailing - Project letter, newsletter, and Notice of Commencement,
2. January 2014 Mailing - Project letter notifying stakeholders that Draft Terms of Reference were available for review,
3. February 2014 Mailing - Project letter and Notice of Submission of the Terms of Reference to the Ontario Ministry of Environment (MOE).

– all of which are enclosed for your review. In the event that you have not previously received this correspondence, we apologize for any inconvenience that this may have caused. We emphasize that we are still in the Project planning and development phase and are interested in your views and input. We would be pleased to hear from you with any questions or concerns you may have with regard to the Project. You will be included in future Project update mailings.

We would also like to take this opportunity to provide you with notice that Terms of Reference for the Environmental Assessment are available for your review and comment. The Terms of Reference outline the anticipated work plan that will be undertaken to confirm a preferred route and study potential effects of the proposed East-West Tie Project. The Terms of Reference are available for review on the Project web site at www.nextbridge.ca. **Please provide any comments you may have by March 31, 2014.** Comments can be submitted by mail or email to;

Dave Bell
Special Project Officer
Ministry of the Environment
Environmental Approvals Branch
2 St. Clair Ave. W., Floor 12A
Toronto, ON M4V 1L5
Tel: 416-314-8001
Fax: 416-314-8452
Email: dave.jr.bell@ontario.ca

Comments received during the review period and the responses provided by NextBridge will be considered by the Minister of the Environment when making a decision about the proposed Terms of Reference.

Please bear in mind that we are still very early in the development phase of the Project, and comments or questions that NextBridge receives *after* March 31, 2014, will still be considered. There will also be further opportunities to actively participate in our consultation program throughout the development phase of the Project, including Open Houses that are planned for later in 2014. The locations, dates and times of these Open Houses are yet to be determined, and will be publically advertised closer to the time.

Additionally, a public Town Hall Meeting will take place in the Township of Dorion at the Dorion Community Centre, located on Dorion Loop Road, on March 31, 2014 at 7:00pm. NextBridge representatives will be in attendance at this meeting to answer questions and receive comments regarding the proposed Project should you be interested in attending.

We would like to thank you for your participation in our consultation program for this Project. Your input is important to us. If you have any questions or concerns, or if you require further information regarding this Project, please call our toll-free phone line at 1-888-767-3006 or email info@nextbridge.ca and leave your contact information or visit our Project web site at www.nextbridge.ca.

Sincerely,

Michael Power, P.Eng.
Project Director – East-West Tie Transmission Project
