Dear Ms. Innis:

**Re: Union Gas Limited and Enbridge Gas Distribution Inc.
Application for Approval of New and Updated Demand Side Management
Measures
OEB File Number EB-2015-0344**

Union Gas Limited (Union) and Enbridge Gas Distribution Inc. (Enbridge) filed a joint application for approval of updated Demand Side Management (DSM) measures and assumptions. A preliminary review of the application has identified that it may not be required at this time and therefore will not be processed.

The application indicates that the Technical Reference Manual (TRM) is expected to be finalized early in 2016, at which time an update to this application will be filed.

The OEB expects that in lieu of the application Union and Enbridge will file, as soon as practicable, the following:

- The TRM including substantiation documents for all measures.
- Net-to-gross adjustment factors and any other assumptions used in prescriptive measures and programs.

The OEB will provide further direction once the TRM is filed.

Yours truly,

Original signed by

Kristi Sebalj
Registrar
