

June 22, 2016

Ms. Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street, Suite 2700
Toronto, Ontario M4P 1E4

Dear Ms. Walli,

Re: EB-2015-0363 Submissions of APPrO to the Staff Discussion Paper on a Cap & Trade Framework for Natural Gas Utilities

Veresen Energy Infrastructure Inc. ("**Veresen**") appreciates the opportunity to comment on the Ontario Energy Board Staff's May 25, 2016 Discussion Paper on a Cap and Trade Regulatory Framework for Natural Gas Utilities.

Veresen is a diversified energy company that owns and operates interests in assets across North America including a:

- 86-MW cogeneration facility located in Windsor, Ontario;
- 17-MW cogeneration facility with a proposed 17.9-MW expansion located in London, Ontario; and
- 400-MW simple cycle gas turbine peaking generation facility in the York region of Ontario.

Veresen has had the opportunity to review the May 25, 2016 Discussion Paper on Cap & Trade Regulatory Framework for Natural Gas Utilities and supports the views expressed by Association of Power Producers of Ontario in its June 22, 2016 submission which it believes accurately captures Veresen's concerns.

Sincerely,

Mr. Riaz Jessa
Manager, Asset Management, Power
