

January 19th, 2017

Ms. Kirsten Walli Board Secretary Ontario Energy Board 2300 Yonge Street, 27th Floor Toronto, ON M4P 1E4

Dear Ms. Walli;

Re: Horizon Utilities Corporation ED-2006-0031 Annual Filing for Electricity Distribution Rates EB-2016-0077 – Draft Rate Order

Horizon Utilities Corporation ("Horizon Utilities") filed its second Annual Filing to its 5 year Custom Incentive Rate Making ("Custom IR") Application (EB-2014-0002) with the Ontario Energy Board ("OEB" or the "Board") for electricity distribution rates effective January 1, 2017 on August 11, 2016.

The Board issued its Decision and Order (the "Decision") in this matter on January 12, 2017. In the Decision, the Board ordered Horizon Utilities to file its Draft Rate Order by January 19, 2017.

In accordance with the Decision, Horizon Utilities provides its Draft Rate Order which incorporates the information directed by the Board from the Decision. This Draft Rate Order incorporates (i) the 2017 Cost of Capital Parameters, as issued by the Board on October 27, 2016; (ii) the November 1, 2016 Regulated Price Plan Rates; and (iii) an update to the regulatory charges as approved by the OEB on December 15, 2016 in its Decision and Order (EB-2016-0362).

Included in this Draft Rate Order are the following Appendices:

- Appendix A: Proposed Tariff of Rates and Charges
- Appendix B: Horizon Utilities' Customer Bill Impacts
- Appendix C: 2017 Revenue Requirement Work Form
- Appendix D: 2017 PILS Work Form
- Appendix E: 2017 Deferral Variance Account Work Form
- Appendix F: 2017 Cost Allocation Model
- Appendix G: Summary of Fixed/Variable Splits
- Appendix H: 2017 Summary of Revenue-to-Cost Ratios
- Appendix I: RTSR Work Form

The following "live" Excel models also accompany the Draft Rate Order:

- 2017 Revenue Requirement Work Form
- 2017 PILS Work Form
- 2017 Deferral Variance Account Work Form
- 2017 Cost Allocation Model
- Bill Impacts Appendix 2-W
- 2017 RTSR Work Form

Two hard copies of the Draft Rate Order will be delivered to the OEB via courier. An electronic copy of the Draft Rate Order and a live Excel version of the Excel Models are being filed using the Board's RESS filing system.

Should you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Original signed by Indy J. Butany-DeSouza

Indy J. Butany-DeSouza, MBA Vice President, Regulatory Affairs Horizon Utilities Corporation 55 John Street North Hamilton, ON L8R 3M8 (905) 317-4765 indy.butany@horizonutilities.com **IN THE MATTER OF** the *Ontario Energy Board Act*, 1998, being Schedule B to the *Energy Competition Act*, 1998 S.O. 1998, c. 15;

AND IN THE MATTER OF an Application by Horizon Utilities Corporation to the Ontario Energy Board for an Order or Orders approving of fixing just and reasonable rates and other service charges for the distribution of Electricity as of January 1, 2017.

HORIZON UTILITIES CORPORATION ("HORIZON UTILITIES") DRAFT RATE ORDER DELIVERED: January 19, 2017

INTRODUCTION

1 Horizon Utilities Corporation ("Horizon Utilities") is a licensed electricity distribution company

2 operating in the City of Hamilton and the City of St. Catharines under Ontario Energy Board

3 ("OEB" or the "Board") Electricity Distribution License ED-2006-0031.

Horizon Utilities' electricity distribution rates were set according to the OEB's Custom Incentive
Regulation ("Custom IR" or "CIR") methodology for the 2015-2019 period. Horizon Utilities and
the Intervenors in the Custom IR Application (EB-2014-0002) (the "Parties") reached a partial
settlement, which was accepted by the OEB. An oral hearing was held on the issues of cost
allocation and rate design. The OEB issued its decision on the outstanding issues on December
11, 2014.

Horizon Utilities submitted its first annual filing to its Custom IR Application with the OEB on
 August 12, 2015. Horizon Utilities updated its 2016 rates to include certain adjustments and
 changes due to reopeners, in accordance with (i) the Settlement Proposal and the Decision and
 Order on its Custom IR Application; and (ii) the Board's new Cost Allocation Policy.

On August 11, 2016, Horizon Utilities submitted its second annual filing to its Custom IR Application with the OEB (the "Annual Filing") pursuant to Section 78 of the *Ontario Energy Board Act, 1998* as amended (the "OEB Act") and pursuant to the Decision of the Board in its Custom 1 IR Application and its 2016 Annual Filing, for approval of its electricity distribution rates and other

2 charges, effective January 1, 2017. Horizon Utilities sought adjustments to 2017 rates, in

accordance with the Settlement Proposal and the Decision and Order. The Board assigned File

4 Number EB-2016-0077 to the Annual Filing.

5 The following four parties requested and were granted intervenor status:

- Association of Major Power Consumers in Ontario ("AMPCO");
- Building Owners and Managers Association ("BOMA");
 - Consumers Council of Canada ("CCC"); and
- 9 School Energy Coalition ("SEC").

Horizon Utilities received interrogatories from OEB staff and intervenors on October 12, 2016 and
 October 17, 2016, respectively. Horizon Utilities provided responses to the interrogatories on

12 November 2, 2016.

8

On November 16, 2016, OEB staff and Intervenors filed written submissions to the interrogatories.
 Horizon Utilities delivered its written Reply Submission on November 25, 2016.

On December 5, 2016, the OEB issued Procedural Order ("PO") No. 2 that ordered a second round of written submissions for OEB staff and intervenors, limited to the arguments made on the Earnings Sharing Mechanism. PO No. 2 also declared Horizon Utilities' current Tariff of Rates and Charges interim as of January 1, 2017 until the final rate order is issued by the OEB. On December 12, 2016, OEB staff and Intervenors filed additional written submissions and Horizon Utilities delivered its additional written Reply Submission on December 16, 2016.

On January 12, 2017, the OEB issued its Decision on all matters in this Annual Filing. In the Decision, the OEB directed Horizon Utilities to: file a Draft Rate Order that incorporates the OEB's determinations in the Decision; and to file detailed supporting material, including all relevant calculations showing the impact of the implementation of the Decision on its proposed revenue requirements, the allocation of the approved revenue requirement to the classes, and the determination of final rates and all approved rate riders including bill impacts.

27 Horizon Utilities submits this Draft Rate Order which incorporates the Orders of the Board in its

28 Decision. This Draft Rate Order includes: (i) an update to the Working Capital Allowance portion

of rate base as a result of changes to Cost of Power flow-through costs published by the OEB on

30 October 19, 2016 in its RPP Price Report for the Regulated Price Plan; (ii) an update for the 2017

- 1 Cost of Capital Parameters, as issued by the Board on October 27, 2016; and (iii) an update to
- 2 the regulatory charges as approved by the OEB on December 15, 2016 in its Decision and Order

3 EB-2016-0362.

- 4 Included in this Draft Rate Order are the following Appendices:
- 5 Appendix A: Proposed Tariff of Rates and Charges
- Appendix B: Horizon Utilities' Customer Bill Impacts
- Appendix C: 2017 Revenue Requirement Work Form
- 8 Appendix D: 2017 PILS Work Form
- 9 Appendix E: 2017 Deferral Variance Account Work Form
- 10 Appendix F: 2017 Cost Allocation Model
- 11 Appendix G: Summary of Fixed/Variable Splits
- Appendix H: 2017 Summary of Revenue-to-Cost Ratios
- 13 Appendix I: RTSR Work Form
- 14 The following "live" Excel models also accompany the Draft Rate Order:
- 15 2017 Revenue Requirement Work Form
- 16 2017 PILS Work Form
- 17 2017 Deferral Variance Account Work Form
- 18 2017 Cost Allocation Model
- 19 Bill Impacts Appendix 2-W
- 20 2017 RTSR Work Form

The Draft Rate Order has been prepared on the basis that Horizon Utilities' new 2017 rates will be effective January 1, 2017 with an implementation date of February 1, 2017. Horizon Utilities has calculated (i) a foregone revenue rider to recover the difference in distribution revenue between the effective date of January 1, 2017 and the implementation date of February 1, 2017, over an eleven-month period ending December 31, 2017; and (ii) Group 1 DVA rate riders based on an eleven-month disposition period from February 1, 2017 to December 31, 2017.

BILL IMPACTS 1

6

- A summary of bill impacts for the typical Residential and GS < 50 kW customer is presented in 2
- Table 1. Appendix B provides a summary of the bill impacts and the live Excel model for Appendix 3
- 2-W has been submitted along with this Draft Rate Order. 4

5 Table 1 - Residential and GS < 50 kW Bill Impacts

| Rate Class | kWh | Distribution % (2017 vs 2016) |
|----------------------|------|-------------------------------------|
| Residential (on TOU) | 750 | (1.65)% |
| GS < 50 kW (on TOU) | 2000 | 0.66% |
| | | Total Bill % |
| | | (2017 vs |
| Rate Class | kWh | 2016) |
| Residential (on TOU) | 750 | (1.75)% |
| GS < 50 kW (on TOU) | 2000 | (1.22)% |

7 8 Note: Total Bill Impacts in Table 1 are exclusive of HST and include the increase in the RRRP rate from \$0.0013/kWh to

\$0.0021/kWh as mandated by the OEB in its Decision and Order EB-2016-0362.

9 SUMMARY OF ADJUSTMENTS TO THE REVENUE REQUIREMENT

10 The revenue requirement has been adjusted to incorporate changes to (i) the Working Capital

11 Allowance portion of rate base as a result of changes to Cost of Power flow-through costs; and

(ii) the Cost of Capital parameters as revised by the OEB on October 27, 2016. 12

The updated 2017 Cost of Power amounts incorporate (i) the RPP prices effective November 1, 13

14 2016; (ii) Hydro One 2016 Uniform Transmission Rates ("UTRs") and Sub Transmission Rates

("STRs") approved by the OEB January 14, 2016; (iii) an update to Horizon Utilities' demand from 15

16 2014 to 2015 actuals in the RTSR model; (iv) an increase to the SME charge as a result of an

update to the number of customers; (v) a change in the ratio of RPP to non-RPP volumes; (vi) a 17

decrease in the Wholesale Market Service Rate of \$0.0008/kWh from \$0.0044/kWh to 18

19 \$0.0036/kWh as approved by the OEB on November 19, 2015; (vii) the inclusion of the Ontario

Electricity Support Program ("OESP") Charge of \$0.0011/kWh; and (viii) an update to the RRRP 20

Rate from \$0.0013/kWh to \$0.0021/kWh as approved by the OEB on December 15, 2016. These 21

changes are discussed in further detail below. 22

23 A summary of the changes to the Cost of Power is provided in Table 2. The Cost of Power has

24 increased by \$100,324,532 as compared to Horizon Utilities' Custom IR Application, with a

corresponding increase of \$614,102 to Revenue Requirement, including the impact of the change 25

to the Cost of Capital Parameters, as identified in Table 3 below. 26

1 Table 2 - Cost of Power 2016 Annual Filing Decision versus Custom IR Application 2 Decision

| Category | 2017 Draft Rate Order | Eiling | | Variance Draft Rate Order vs. Custom IR | % Variance |
|---------------------------|--------------------------|---------------|---------------|---|------------|

3

7 Table 4 below identifies the significant changes in the revenue requirement for 2017 as a result

8 of the OEB's decision as compared to: (i) that which was provided in the Annual Filing; and (ii)

9 that which was approved in Horizon Utilities' Custom IR Application. The 2017 Revenue

10 Requirement Work Form, filed as Appendix C, also provides a detailed continuity of changes from

11 the Annual Filing to the Draft Rate Order.

| Servi | ice Revenue Requirement | | \$ | 121,162,742 | \$ 442,631 | | \$ 121,605,372 | \$ (1,143,386) | \$ | 120,460,134 | | |
| 7 | Revenue Offsets | | \$ | 5,755,938 | \$ - | | \$ 5,755,938 | \$ - | \$ | 5,755,938 | | |
| Base | Revenue Requirement | | \$ | 115,406,804 | \$ 442,631 | | \$ 115,849,435 | \$ (1,143,386) | \$ | 114,704,196 | | |

| Notes | S |
|-------|--|
| 1 | The increase in working capital base is the result of changes to the Cost of Power flow-through costs: (i) the RPP price increase effective November 1, 2016; (ii) Hydro One 2016 UTRs and STRs approved by the OEB January 14, 2016; (iii) an update to Horizon Utilities' demand from 2014 to 2015 actuals in the RTSR mode; (iv) an increase to the SME charge as a result of an update to the number of customers; (v) a charge in the ratio of RPP to non-RPP volumes; vi) a decrease in the Wholesale Market Service Rate of \$0.0008/kWh from \$0.0044/kWh to \$0.0036/kWh as approved by the OEB on November 19, 2015; (viii) the inclusion of the Ontario Electricity Support Program ("OESP") Charge of \$0.0011/kWh; and (ix) an increase in the RRRP rate of \$0.0008/kWh from \$0.0013/kWh to \$0.0021/kWh as approved by the OEB on December 15, 2016 |
| 2 | The increase in working capital allowance is due to the increase in working capital base as a result of changes to Cost of Power flow-through costs. |

| 3 |
|---|
|---|

⁴ The decrease in return on equity is due to the decrease in the return on equity from 9.30% to 8.78% partly offset by an increase in working capital base as a result of changes to Cost of Power flow-through costs.

5 The decrease in PILs is due to the decrease in the Cost of Capital Parameters partly offset by an increase in working capital base as a result of changes to Cost of Power flow-through costs.

1 DECISION SUMMARIZED BY ISSUE

- 2 The issues presented in this Draft Rate Order are organized in the manner that these issues are
- 3 set out in the Board's Decision. The Board's Decision is presented first, with Horizon Utilities'
- 4 action taken as per the Decision immediately thereafter.

5 1. Reopeners

- 6 The Parties to the Settlement Proposal agreed on a list of reopeners to the Custom IR Application.
- 7 Horizon Utilities' Custom IR Application included reopeners such as: changes to income tax rates
- 8 and laws; changes to environmental laws; changes to technical requirements beyond the control
- 9 of the utility; items that qualified for a Z-factor; accounting framework changes; and changes to
- 10 the permitted market rates to be charged for wireless pole attachments.

11 Board Findings – as per page 3 of the Decision

- "Horizon indicated that none of these reopeners applied to 2017. The intervenors and OEB staff
 agreed."
- 14 No further action is required by Horizon Utilities as a result of the Board's Decision regarding the
- 15 above-mentioned reopeners.

16 **OEB Policy Changes/ Ministerial Directives**

- 17 Horizon Utilities indicated that the Annual Filing was being updated for OEB policy and Ministerial
- 18 Directive related reopeners. Specifically, the Annual Filing addressed:
- a) The change in OEB policy on cost allocation for Street Lighting issued on June 12, 2015,
- Issuance of New Cost Allocation Policy for Street Lighting Rate Class (the "New Cost
 Allocation Policy");
- b) Changes in OEB policy including the *Report of the Board: A New Distribution Rate Design for Residential Electricity Customers* (EB-2015-0410) ("Residential Distribution Rate Design");
- 24 c) Regulatory Charges
- 25 i. Implementation of Ministerial Directive related to the OESP; and
- 26 ii. Implementation of an OEB directive related to the Wholesale Market Service Rate.

Subsequent to the issuance of the OEB's Decision on the Annual Filing, the OEB issued a
Decision and Order in the matter of regulatory charges on December 15, 2016 (EB-2016-0362)
("Decision and Order on Regulatory Charges") which Horizon Utilities has incorporated in its Draft
Rate Order. Specifically, under Regulatory Charges, the Draft Rate Order addresses the

- implementation of the revised Rural or Remote Electricity Rate Protection ("RRRP") Charge of
 \$0.0021/kWh.
- 3 These three items are addressed below:

a) Cost Allocation for Street Lighting and Large Use (2) rate classes

5 Street Lighting

On June 12, 2015, the OEB issued its new Cost Allocation Policy for the Street Lighting Rate 6 7 Class (the "Cost Allocation Policy") which resulted in changes to the street lighting adjustment factor ("SLAF"). In its 2016 Annual Filing, Horizon Utilities updated its 2016 rates to 8 9 incorporate this change and proposed that the Revenue to Cost Ratio ("RCR") for the Street 10 Lighting class be adjusted to 100%. The OEB accepted Horizon Utilities' update for the SLAF 11 and was satisfied that Horizon Utilities had updated the policy correctly. The OEB also directed that "the implementation of a RCR of 100% for street light class should be phased in. as has 12 been the past practice, starting with a move to 120% for 2016. Moving the RCR to 100% 13 should be done over subsequent years at a reduction of 6.6% per year for three years. This 14 15 progression will assist in gradually phasing in the change." The Board also approved the cost allocation models for 2017 to 2019 in Horizon Utilities' 2016 Annual Filing. 16

Horizon Utilities derived its 2017 rates using Version 3.4 of the Cost Allocation Model inclusive
of the SLAF and the reduction to the RCR from 120% in 2016 to 113.33% in 2017.

19 Large Use (2)

- 20 Horizon Utilities proposed an adjustment to the RCR for the Large Use (2) rate class which
- 21 was the only rate class outside of the OEB's Revenue to Cost ratio range for that rate class.
- The RCR was adjusted from 67.45% to 85.00%, the lower end of the Large Use (2) range.

The net effect of the changes to the RCR for the Street Lighting and Large Use (2) rate classes was a revenue sufficiency, which was allocated by way of an equal percentage to all rate classes that were above 100% RCR, with the exclusion of the Standby Class. This is consistent with Horizon Utilities' approach in its Custom IR Application which was approved by the OEB in the Decision on that Application¹.

28 There were no objections to Horizon Utilities' proposals.

¹ Page 10 of Horizon Utilities' Decision and Order, dated December 11, 2014

1 Board Findings – as per page 3 of the Decision

- 2 *"The OEB approves Horizon's proposed changes to the Street Lighting and LU(2) rate classes in*
- 3 2017 as the changes are consistent with prior OEB decisions and OEB policies."
- Horizon Utilities' Annual Filing includes these proposed rate changes. No further action is required. The adjusted 2017 RCR, inclusive of the SLAF and the necessary adjustments to move the RCR to within the OEB approved ranges are identified in the table below. In the process of setting the Standby charge equal to the variable charge for the GS > 50 kW class, the revenue to cost ratio falls outside the Board range, consistent with the methodology as approved in the
- 9 Decision on the Custom IR Application.

2017 Board Approved EB-2014-0002 **Rate Class** 2017 Inclusive After Rate of SLAF After **OEB** Approved Design¹ Rate Design Range Residential 103.30% 101.30% 85%-115% GS < 50kW98.38% 99.01% 80%-120% GS > 50 to 4999kW 94.32% 96.16% 80%-120% Standby 71.62% 73.23% 80%-120% LU (1) 112.02% 113.35% 85%-115% LU (2) 85%-115% 85.00% 85.00% Sentinel Lights 98.77% 93.57% 80%-120% 80%-120% Street Lighting 82.43% 113.33% 80%-120% Unmetered and Scattered Load 119.52% 114.34%

10 **Table 5 – 2017 Revenue to Cost Ratios after Rate Design**

1. Appendix I of Horizon Utilities' Draft Rate Order, dated December 18, 2014

12 A comparison of the costs and revenues by class after rate design is provided in Table 6. The

resulting 2017 proposed base revenue amounts identified in Table 7 below are used to derive the

14 proposed distribution charges in this Draft Rate Order.

1 Table 6 – 2017 Proposed Revenue and Costs

| Rate Class | 2017 Proposed | 2017 Proposed | Revenue vs. | |
|------------------------------|---------------|---------------|-------------|---------|
| Rale Class | Revenues | Costs | Cost \$ | RCR |
| Residential | \$74,502,063 | \$73,546,733 | \$955,331 | 101.30% |
| GS < 50kW | \$16,212,670 | \$16,374,167 | (\$161,497) | 99.01% |
| GS > 50 to 4999kW | \$22,693,041 | \$23,599,815 | (\$906,774) | 96.16% |
| Standby | \$840,609 | \$1,148,606 | (\$307,997) | 73.19% |
| LU (1) | \$2,625,633 | \$2,316,457 | \$309,176 | 113.35% |
| LU (2) | \$1,038,072 | \$1,221,261 | (\$183,189) | 85.00% |
| Sentinel Lights | \$45,535 | \$48,666 | (\$3,131) | 93.57% |
| Street Lighting | \$2,022,270 | \$1,784,408 | \$237,862 | 113.33% |
| Unmetered and Scattered Load | \$480,241 | \$420,021 | \$60,220 | 114.34% |
| Total | \$120,460,134 | \$120,460,134 | \$0 | |

3 Table 7 – 2017 Base and Service Revenue Requirement by Class

| Rate Class | 2017 Proposed Base Revenue Requirement | 2017 Proposed Miscellaneous Revenue | 2017 Proposed Service Revenue Requirement |
|------------------------------|--|---|---|
| Residential | \$70,675,047 | \$3,827,017 | \$74,502,063 |
| GS < 50kW | \$15,533,997 | \$678,672 | \$16,212,670 |
| GS > 50 to 4999kW | \$21,732,212 | \$960,828 | \$22,693,041 |
| Standby | \$789,505 | \$51,104 | \$840,609 |

3 b) New Distribution Rate Design

4 The New Distribution Rate Design for Residential customers, issued by the OEB on April 2, 2015,

5 identified that rates for Residential customers will be migrated to a fixed monthly distribution

6 charge over a four-year transition period commencing in 2016 and ending in 2019.

7 The Board directed that "Each distributor will determine its fully fixed charge and will make equal

8 increases in the fixed charge over four years to get to the fully fixed charge. At the same time, the

9 usage charge will be reduced in order to keep the distributor revenue-neutral."

Horizon Utilities implemented the first year transition adjustment in its 2016 rates. Horizon Utilities 10 indicated on page 33 of its Annual Filing that it has incorporated the second year transition 11 12 adjustment in its proposed rates for 2017. It also indicated on page 38 that it had conducted analysis on the 10th consumption percentile of energy consuming customers and followed the 13 OEB's instructions to consider whether rate mitigation was required if there was greater than a 14 10% cost of distribution service. Horizon Utilities confirmed that the monthly service charge was 15 not increasing by more than \$4, nor would the customer at the 10th consumption percentile of 16 17 electricity consumption have a bill impact of 10% or more.

18 **Board Findings – as per page 4 of the Decision**

"The OEB finds that the proposed increase...to the residential monthly fixed charge is in accordance with the OEB's EB-2015-0075 decision and the OEB's policy on distribution rate design for residential customers. The OEB approves the proposed increase in the fixed distribution rate and corresponding decrease in the variable distribution rate for the residential

- 1 class in 2017. The OEB confirms that the change in residential rates in 2017 is revenue neutral
- 2 for Horizon; the forecast revenue Horizon will collect from the residential customer class in 2017
- 3 will not change as a result of the approved rate design changes."
- Horizon Utilities has implemented the changes in a manner consistent with OEB policy. The
 impact of incorporating the changes identified on pages 3 and 4, and as approved in the Board's
 Decision, is \$1.12 (or 2.11%) for the 10th percentile customer at a consumption of 219 kWh/month,
 an amount well below the Board's \$4.00/month (or 10%) mitigation threshold. This bill impact is
- 8 identified in Table 9 below.

10

1 c) Regulatory Charges

2 **OESP**

Horizon Utilities implemented the OESP on January 1, 2016 to provide support to eligible
low-income customers as approved by the OEB in its 2016 Annual Filing. The OESP is
funded through electricity rates as a volumetric charge and delivered as a reduction on
qualifying customers' bills. The OEB ordered in its Decision and Order on Regulatory
Charges that distributors continue to charge \$0.0011/kWh to customers for the OESP.
Horizon Utilities has incorporated this in its Annual Filing and Draft Rate Order.

9 Wholesale Market Service Rate

10 Horizon Utilities implemented changes to its Wholesale Market Service ("WMS") Rate in 11 2016 as directed by the OEB in its Decision and Order on Regulatory Charges; and in its Accounting Guidance on Capacity Based Recovery ("CBR") issued July 25, 2016. Class 12 B customers were charged a WMS Rate of \$0.0036/kWh which included the CBR Rate of 13 14 \$0.0004/kWh. Class A customers were charged a WMS Rate of \$0.0032/kWh and their 15 proportion of the actual CBR charge invoiced by the IESO. The OEB ordered in its Decision and Order on Regulatory Charges that distributors continue to charge the WMS 16 17 rate of \$0.0036/kWh and \$0.0032/kWh in 2017 for Class A and Class B customers, respectively. Horizon Utilities has incorporated this in its Annual Filing and Draft Rate 18 Order. 19

20 RRRP Charge

The Government of Ontario announced three initiatives to mitigate rising electricity costs in its Throne Speech delivered September 12, 2016. Legislation was passed on October 18, 2016 to facilitate implementation of these initiatives which are effective January 1, 2017. One of these initiatives was to enhance the RRRP program to provide more on-bill savings for eligible rural customers.

The RRRP program is designed to provide financial assistance to eligible customers located in rural or remote areas where the costs of providing electricity service to these customers greatly exceeds the costs of providing electricity to customers located elsewhere in the province of Ontario. The cost of this program, including the commitment to provide further on-bill savings for eligible rural customers, is and will be funded by all consumers who withdraw electricity from the Independent Electricity System Operator ("IESO") grid. In its Decision and Order on Regulatory Charges the OEB announced that
 the RRRP charge that distributors bill to their customers shall increase to \$0.0021/kWh
 from \$0.0013/kWh, effective January 1, 2017, in order to fund the increase in savings
 provided to rural customers. Horizon Utilities has incorporated this rate change in its Draft
 Rate Order.

6 **Board Findings – as per page 9 of the Decision**

- ⁷ "The OEB previously determined^e that the RRRP charge for 2017 shall be \$0.0021 per kWh.
- 8 The WMS rate used by rate-regulated distributors to bill their Class A customers shall continue to
- 9 be \$0.0032. For Class B customers, a CBR component of \$0.0004 per kWh is added to the WMS
- 10 rate for a total of \$0.0036 per kWh.
- 11
- 12 These changes are effective January 1, 2017 for all distributors. The OEB directs Horizon to file 13 a draft rate order that reflects these changes to the Regulatory Charge."
- 14

Horizon Utilities has incorporated the above changes to the regulatory charges into the computations of the cost of power and revenue requirement as identified on pages 5 and 6; and in its Proposed Tariff of Rates and Charges filed as Appendix A.

18 2. Annual Adjustments

Horizon Utilities' OEB approved Settlement Agreement provided for annual adjustments in the
Custom IR rate plan term. Horizon Utilities sought approval, in its Annual Filing, for such
adjustments, as follows:

22 a) Changes in the Cost of Capital

- 23 Horizon Utilities identified in its Annual Filing that it would update the Cost of Capital Parameters.
- 24 The OEB released the Cost of Capital Parameters on October 27, 2016.

² Decision and Rate Order for EB-2016-0362, December 15, 2016

1 Board Findings as per page 6 of the Decision

- 2 *"The OEB approves Horizon's proposed cost of capital as it appropriately includes the OEB's*
- 3 2017 cost of capital parameters as issued on October 27, 2016 and reflects the terms of the
- 4 settlement proposal."

Horizon Utilities has updated the revenue requirement for the change in the Cost of Capital Parameters in its Draft Rate Order. The change in the Cost of Capital parameters has been incorporated into the derivation of Horizon Utilities' revenue requirement and Proposed Tariff of Rates and Charges and is identified in Table 4 on page 6. The impact to the stranded meter rate rider as a result of the change in the Cost of Capital Parameters is discussed on pages 20-22.

10 b) Changes to the Working Capital Allowance

Horizon Utilities has updated the working capital allowance in its Annual Filing and Draft Rate
Order as a result of changes to the Cost of Power flow-through costs as follows:

- i) Cost of Power and the Global Adjustment rates in the Annual Filing were updated with
 RPP prices effective May 1, 2016, the most recent rates at the time of the filing.
 Horizon Utilities has updated the Draft Rate Order with RPP prices effective November
 1, 2016;
- ii) Retail Transmission Service Rates were updated to incorporate 2016 Hydro One
 UTRs and STRs approved by the OEB January 14, 2016; and an update to Horizon
 Utilities' demand from 2014 to 2015 actuals;
- 20 iii) The Smart Metering Entity Charge was updated to incorporate 2015 Residential and
 21 GS < 50 kW customer counts with no change to the Rate Rider;
- iv) The ratio of RPP vs. non-RPP volumes was updated for 2015 actuals;
- 23 v) The Wholesale Market Service Rate was updated from \$0.0044/kWh to \$0.0036/kWh;
- vi) The OESP charge of \$0.0011/kWh is included in Cost of Power; and
- vii) The RRRP charge was updated from \$0.0013/kWh to \$0.0021/kWh as approved by
 the OEB on December 15, 2016 in its Decision and Order on Regulatory Charges.
- 27

1 Board Findings as per page 6 of the Decision

- 2 "The OEB approves Horizon's proposals for its Working Capital Allowance and expects the draft
- 3 rate order will reflect the updated Cost of Power and Global Adjustment rates effective
- 4 November 1, 2016."
- 5 No further action is required by Horizon Utilities.

6 c) Changes in Other Third Party Pass Through Charges

- 7 The updates related to changes in other third party pass through charges are discussed above
- 8 in sections 1 (c) and 2 (b). Horizon Utilities did not propose any other changes to third party
- 9 pass through charges in 2017.

10 Board Findings as per page 7 of the Decision

- 11 *"The OEB finds that Horizon's proposals are consistent with the settlement proposal. Other than*
- 12 the update to the working capital allowance, no other third party pass through charges change
- 13 in 2017."
- 14 There is no further action required by Horizon Utilities as a result of this Board finding.

15 d) Earnings Sharing Mechanism ("ESM")

The Settlement Agreement provided for the introduction of a deferral account for an ESM where earnings in excess of the Board's annual approved regulatory return on equity ("ROE"), as established by the Board in its Cost of Capital Parameters. For each of the years 2015-2019, earnings in excess of approved ROE would be divided on a 50/50 basis between Horizon Utilities and its ratepayers. Horizon Utilities calculated a 2015 return on equity ("ROE") of 9.275%; this result is below the deemed ROE of 9.30% for the purpose of the ESM. Horizon Utilities submitted that no earnings sharing was required.

23

1 Board Findings as per page 9 of the Decision

- 2 "The OEB accepts Horizon's 2015 ROE calculation of 9.275% for the purpose of the earning
- 3 sharing mechanism. As a result, no entry to the deferral account for earning sharing is required
- 4 as 9.275% is lower than the deemed ROE of 9.30% for 2015".
- 5 There is no further action required by Horizon Utilities as a result of this Board finding.

6 e) Capital Investment Variance Account ("CIVA")

- Horizon Utilities' Settlement Agreement provided for the introduction of a deferral account to
 refund ratepayers the impact to revenue requirement of the variance in its cumulative capital
 additions for the period from January 1, 2015 to the end of the relative year, in the event that inservice capital additions be lower than the capital approved in its Settlement Agreement.
- 11 Horizon Utilities reported on its capital additions for 2015 in this Annual Filing. The first year for
- 12 which Horizon Utilities is required to track variances in the revenue requirement due to variances
- in the capital budget is 2015. Horizon Utilities reported 2015 capital additions of \$46.6MM, which
- 14 was \$8.3MM higher than the amount of \$38.3MM approved in Horizon Utilities Settlement
- 15 Agreement. Since the capital additions were above the forecast, Horizon Utilities did not establish
- 16 or make and entry to the CIVA.
- 17 AMPCO and OEB staff accepted the calculation for the CIVA.
- 18 Board Findings as per page 10 of the Decision
- 19 *"The OEB approves the proposed calculation for the CIVA as it is consistent with the settlement*
- 20 proposal."
- 21 No further action is required.

22 f) Efficiency Adjustment

Horizon Utilities' Settlement Agreement included an Efficiency Adjustment intended to incent
Horizon Utilities to maintain or improve its cohort position based on the *Board's Empirical Research in Support of Incentive Rate-Setting: 2013 Benchmarking Update for determination of Stretch Factor Assignments for 2015 dated August 14, 2014* (August 14, 2014 Report). The
Efficiency Adjustment applies in the event that Horizon Utilities is placed in a less efficient cohort
than the Starting Point in any year during the Custom IR term.

1 The August 14, 2014 Report placed Horizon Utilities in Group III among Ontario distributors for

2 the purpose of calculating stretch factors for 2015. The Group III Cohort is therefore the Starting

3 Point for the rate plan.

4 The OEB issued the *Board's Empirical Research in Support of Incentive Rate-10 Setting: 2015*

5 Benchmarking Update for determination of Stretch Factor Assignments for 2016 dated August 4,
6 2016 (August 4, 2016 Report). The August 4, 2016 Report placed Horizon Utilities in Group III

7 among Ontario distributors for the purposes of calculating stretch factors for 2017. Horizon

- 8 Utilities' Starting Point is Cohort III; the Ending Point is also Cohort III.
- 9 Horizon Utilities identified in its Annual Filing that no Efficiency Adjustment was to be made to the
- 10 revenue requirement for the 2017 Rate Year as per the Settlement Agreement.

11 Board Findings as per page 11 of the Decision

12 *"The OEB finds that no Efficiency Adjustment is required in 2017 as Horizon's assigned cohort*

- 13 has not changed since 2015."
- 14 There is no further action required by Horizon Utilities as a result of this Board finding.

15 g) Adjustment to the Stranded Meter Rate Rider

Horizon Utilities indicated in its Annual Filing that it would update the stranded meter rate rider for the 2017 Cost of Capital parameters which were issued on October 27, 2016. Horizon Utilities has updated the stranded meter rate rider to include a return of 1.76%, equal to the approved short-term debt rate for 2017. The calculation of the stranded meter recovery is identified in Table 10 below and was updated from \$2,740,471 in the Annual Filing to \$2,742,144 in the Draft Rate Order. The calculation of the stranded meter rate rider based on a twelve-month disposition period is identified in Table 11.

- OEB staff agreed that Horizon Utilities' proposal to update for the 2017 Cost of Capital parameters
- 24 was consistent with the Settlement Agreement.

1 Table 10 – Calculation of Stranded Meter Recovery

| Fixed Asset Continuity | 2015 | 2016 | 2017 |
|------------------------|---------------|---------------|---------------|
| Opening Balance | \$7,974,590 | \$5,316,393 | \$2,658,197 |

4

2

5 **Board Findings – as per page 11 of the Decision**

6 "The OEB approves the recovery of the stranded meter assets and return of 1.76%, consistent

7 with the OEB's approved 2017 cost of capital parameters and the settlement proposal. The OEB

8 directs Horizon to recalculate the stranded meter rate riders for inclusion in the draft rate order

9 given the approved February 1, 2017 implementation date and an 11-month disposition period."

As identified above, Horizon Utilities has updated the 2017 stranded meter recovery to include a 10 return of 1.76%. Horizon Utilities submits that the stranded meter rate rider should not be 11 recalculated for recovery over an eleven-month disposition period. In PO No. 2 for the Annual 12 Filing, the Board ordered that "Horizon Utilities' current Tariff of Rates and Charges shall be made 13 14 interim as of January 1, 2017 and until such time as a final rate order is issued by the OEB". Horizon Utilities' current Tariff of Rates and Charges includes a Rate Rider for the Recovery of 15 16 Stranded Meters effective until December 31, 2017 for the Residential, GS < 50 kW and GS > 50 17 kW rate classes. Consequently, for January 2017, Horizon Utilities continued to charge these 18 customers the stranded meter rate rider in effect on the current Tariff of Rates and Charges. If

Horizon Utilities were to recalculate the 2017 stranded meter rate rider based on an eleven-month
disposition period, it would over charge customers by approximately \$0.23MM, since it will already
have billed customers the 2016 stranded meter rate rider in January 2017. Therefore, Horizon
Utilities proposes that it calculate the 2017 stranded meter rate rider based on a twelve-month
disposition period and charge customers this rate rider from February 2017 to December 2017.

6 If Horizon Utilities' proposal is approved by the Board, there will be a difference in the stranded 7 meter rate rider that will charged to customers in January 2017 (based on a return of 1.65% and 8 the 2016 customer counts) and the stranded meter rate rider that should have been charged to customers in January 2017 (based on a return of 1.76% and the 2017 customer counts). This 9 difference, on a full year basis, is identified in Table 12 below. This translates to a difference of 10 \$276 for the month of January, as identified in Table 13. Horizon Utilities offers that this difference 11 is immaterial and requests that the Board approve the disposition of the 2017 stranded meter 12 recovery based on (i) charging customers the 2016 stranded meter rate rider in January 2017 and 13 (ii) charging customers 1/12th of the 2017 stranded meter recovery in each of February to 14 15 December, 2017.

16 **Table 12 – Revenue Recovered from Customers per 2017 and 2016 Stranded Meter Rate** 17 **Riders**

| 12 Months at 2017 | Customer Class | # of Active Metered Customers (average 2017) | 2017 Rate Rider Recovery including 1.76% Regulated Rate of Return | Charge | Charge per Year (charge rounded to 2 decimal places) | Charge per Month (charge rounded to 2 decimal places) |

| January | \$229,583 | \$229,859 | \$276 | |
| February to December | \$2,525,414 | \$2,525,414 | \$0 | |
| Total | \$2,754,997 | \$2,755,273 | \$276 | |

3

4 Deferral and Variance Accounts ("DVA")

5 a) Group 1 DVA balance

- 6 Horizon Utilities included in its Annual Filing a request for the disposition of Group 1 accounts
- 7 over a one-year period in the amount of \$8,484,548, including carrying charges projected to
- 8 December 31, 2016. Horizon Utilities identified that the balance exceeds the disposition threshold
- 9 of \$0.001/kWh.

10 **Board Findings as per page 12 of the Decision**

- 11 *"The OEB approves the Group 1 DVA credit balance of \$8,484,548 for disposition, which is the*
- 12 balance at December 31, 2015 including interest to December 31, 2016."
- 13 Horizon Utilities included the disposition of its Group 1 Deferral and Variance Account balances,
- 14 as identified in Table 1 on page 13 of the Decision, in its Proposed Tariff and Rates and Charges.
- 15 No further action is required.

16 b) Disposition of Group 1 DVA balance

- 17 Horizon Utilities proposed to dispose of the Group 1 DVA balances over a period of twelve months
- 18 through rate class specific rate riders.
- 19 Horizon Utilities also included in its Annual Filing a specific disposition proposal for Account 1589
- 20 RSVA Global Adjustment ("GA") with a balance of \$2,657,566. Horizon identified six former
- 21 Class B customers who qualified as Class A customers effective July 1, 2015.
- 22 Horizon Utilities proposed to allocate only the portion of the GA balance accrued prior to their
- 23 Class A classification based on their percentage of non-RPP Class B volume, during the period

- 1 they were Class B customers. The amount of \$92,950 was proposed to be allocated to these six
- 2 customers through specific bill adjustments with recovery through 12 equal monthly payments.
- 3 OEB staff submitted that Horizon Utilities' specific disposition proposal was consistent with the
- 4 methodology provided in the OEB's DVA Work Form for customer specific bill adjustments.

5 **Board Findings as per page 14 and 15 of the Decision**

- 6 "The OEB approves the proposed allocation of \$92,950 from Global Adjustment balance to the
- 7 six customers reclassified from Class B to A as follows:

| # of Former Class B Customer(s) | | |
|------------------------------------|----------|---|
| Customer | % of kWh | Customer Specific GA Allocation for the Period Prior to becoming Class A |
| Customer 1 | 11.33% | \$10,535 |
| Customer 2 | 14.32% | \$13,313 |
| Customer 3 | 13.03% | \$12,113 |
| Customer 4 | 20.40% | \$18,965 |
| Customer 5 | 16.57% | \$15,405 |
| Customer 6 | 24.33% | \$22,619 |
| Total | 100% | \$92,950 |

8

9 The OEB does not approve Horizon's proposed disposition of the Group 1 DVA balances over

10 one year or in 12 monthly installments. Given the approved implementation date for 2017 rates

is February 1, 2017, the OEB approves disposition of the Group 1 DVA balances over an 11-

12 month period from February 1, 2017 to December 31, 2017 to align with Horizon's rate year.

13 The OEB directs Horizon to recalculate the DVA rate riders for inclusion in the draft rate order."

14 Horizon Utilities has recalculated the DVA rate riders to dispose of the Group 1 DVA balances

15 over an eleven-month period and has included the revised riders in its Proposed Tariff of Rate

16 and Charges. This calculation is identified in Table 14.

1 Table 14 – Calculation of the DVA Rate Riders over an Eleven-Month Period

1 **IMPLEMENTATION**

2 Horizon Utilities proposed an effective date of January 1, 2017 for its revised 2017 rates. Horizon Utilities did not receive a decision

3 from the Board in time to implement its 2017 revised rates. In PO No. 2, the Board declared Horizon's current rates interim as of

- 4 January 1, 2017 until such time as new rates were approved.
- 5 In its Decision, the OEB approved a January 1, 2017 effective date for Horizon Utilities' new 2017 rates with an implementation date
- 6 of February 1, 2017. It directed Horizon Utilities to calculate the foregone revenue and associated rate riders to recover the difference

7 in revenue between the effective date of January 1, 2017 and the implementation date of February 1, 2017. The foregone revenue is

- to be recovered from customers over the eleven-month period from February 1, 2017 to December 31, 2017.
- 9 Horizon Utilities calculates the foregone revenue equal to the difference between (i) distribution revenue for January 2016 using 2016
- 10 current approved distribution rates multiplied by Board-approved billing determinants and (ii) distribution revenue for January 2016
- using proposed 2017 distribution rates multiplied by Board-approved billing determinants. The difference is a revenue shortfall of
- 12 \$16,127 as identified in Table 15.

| | 423,991,971 | 649,117 | 244,028 | 55,760 | | | \$6,118,315 | \$3,554,718 | | | \$6,693,258 | \$2,995,901 | (\$3,292) | \$19,419 | \$16,127 |

13 Table 15 – Foregone Revenue Calculation

The foregone revenue rate rider was calculated using the Board-Approved February to December 1 billing determinants. Due to the magnitude of the foregone revenue, Horizon Utilities proposes 2 that the foregone revenue rate rider be calculated based on variable billing determinants. 3 Disposition based on fixed billing determinants results in a recovery of \$26,693, as compared to 4 a recovery of \$17,643 based on variable billing determinants as identified in Table 16 below. 5 6 Further, the amount of the foregone revenue is too small to recover based on both variable and 7 fixed billing determinants. The proposed foregone revenue rate rider is provided in Table 17 8 below.

| | February - D | ecember 2 | 017 Billing D | eterminants | | Foregone Revenue Rider | | | | | |
|------------------------------|---------------|-----------|----------------|------------------|---------------------|---|--|------------------------------|------------------------|--|--|
| Class | kWh | kW | # Customers | # Connections | Foregone Revenue | 100% Variable Rate Rider (4 decimal places) | 100% Fixed Rate Rider/month (2 decimal places) | 100% Variable Recovery | 100% Fixed Recovery | | |

- 12
- Horizon Utilities has calculated a foregone revenue rider to recover the difference in distribution 13
- revenue between the effective date of January 1, 2017 and the implementation date of February 14
- 15 1, 2017, over an eleven-month period ending December 31, 2017.

1 Board Findings – as per page 16 of the Decision

2 "Horizon is directed to file a draft rate order to reflect the findings of this Decision. The OEB

3 expects Horizon to file detailed supporting material including, but not limited to, a completed

4 version of the OEB's revenue requirement work form showing the impact of the Decision on its

5 proposed revenue requirement, the allocation of the approved revenue requirement to the

6 classes, and the determination of the final rates, including bill impacts."

In filing this Draft Rate Order, Horizon Utilities has provided detailed supporting evidence,
including all relevant calculations showing the impact of the Board's Decision on Horizon Utilities'
proposed revenue requirement, the allocation of the approved revenue requirement to the

10 classes, and the determination of the final rates, including bill impacts.

11 Horizon Utilities intends to implement these changes beginning February 1, 2017.

12 CONCLUSION

Horizon Utilities has fully complied with the Decision and has implemented all of the changes directed by the Board in its Decision, with the exception of the implementation of the 2017 Stranded Meter Rate Rider, as discussed on pages 20-22. Details of the changes are discussed above and further supported by the Appendices and live Excel workbooks accompanying this Draft Rate Order. Horizon Utilities' Service Revenue Requirement for the 2017 Rate Year is \$120,460,134 and is summarized in Table 4.

19 Horizon Utilities has attached, as Appendix A, a Proposed Tariff of Rates and Charges prepared on the basis that Horizon Utilities' new 2017 rates will be effective January 1, 2017 and 20 21 implemented as of February 1, 2017. Horizon Utilities has attached the customer bill impacts as Appendix B. Horizon Utilities current rates (i.e., 2016) have been declared interim effective 22 23 January 1, 2017, and a foregone revenue and rate rider has been calculated to recover the difference in revenue collected between the effective date of January 1, 2017 and the 24 25 implementation date of February 1, 2017. The foregone revenue is to be recovered from customers over the eleven-month period from February 1, 2017 to December 31, 2017. 26

Appendix A: Proposed Tariff of Rates and Charges

Horizon Utilities Corporation

PROPOSED TARIFF OF RATES AND CHARGES

Effective Date January 1, 2017 Implementation Date February 1, 2017

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2016-0077

RESIDENTIAL SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less where the electricity is used exclusively in a separate metered living accommodation. Customers shall be residing in single-dwelling units that consist of a detached house or one unit of a semi-detached, duplex, triplex or quadruplex house, with a residential zoning. Separately metered dwellings within a town house complex or apartment building also qualify as residential customers. All customers are single-phase. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

MONTHLY RATES AND CHARGES – Delivery Component

Standard Supply Service - Administrative Charge (if applicable)

| Service Charge | \$ | 21.34 |
|---|--------|----------|
| Rate Rider for Smart Metering Entity Charge – effective until October 31, 2018 | \$ | 0.79 |
| Rate Rider for Recovery of Stranded Meter Assets – effective until December 31, 2017 | \$ | 0.79 |
| Distribution Volumetric Rate | \$/kWh | 0.0081 |
| Low Voltage Service Rate | \$/kWh | 0.00006 |
| Rate Rider for Disposition of Deferral/Variance Accounts (2017) - effective until December 31, 2017 | \$/kWh | (0.0026) |
| Rate Rider for Disposition of Global Adjustment (2017) – effective until December 31, 2017 | | |
| Applicable only for Non-RPP Class B Consumers | \$/kWh | 0.0016 |
| Retail Transmission Rate – Network Service Rate | \$/kWh | 0.0074 |
| Retail Transmission Rate – Line and Transformation Connection Service Rate | \$/kWh | 0.0059 |
| MONTHLY RATES AND CHARGES - Regulatory Component | | |
| Wholesale Market Service Rate | \$/kWh | 0.0036 |
| Rural or Remote Electricity Rate Protection Charge (RRRP) | \$/kWh | 0.0021 |

Effective Date January 1, 2017 Implementation Date February 1, 2017

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2016-0077

ONTARIO ELECTRICITY SUPPORT PROGRAM RECIPIENTS

In addition to the charges specified on this tariff of rates and charges, the following credits are to be applied to eligible residential customers.

APPLICATION

The application of the credits is in accordance with the Distribution System Code (Section 9) and section 79.2 of the Ontario Energy Board Act, 1998.

The application of these credits shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

Definitions:

"Aboriginal person" includes a person who is a First Nations person, a Métis person or an Inuit person;

"account-holder" means a consumer who has an account with a distributor that falls within a residential-rate classification as specified in a rate order made by the Ontario Energy Board under section 78 of the Act, and who lives at the service address to which the account relates for at least six months in a year;

"electricity-intensive medical device" means an oxygen concentrator, a mechanical ventilator, or such other device as may be specified by the Ontario Energy Board;

"household" means the account-holder and any other people living at the accountholder's service address for at least six months in a year, including people other than the account-holder's spouse, children or other relatives;

"household income" means the combined annual after-tax income of all members of a household aged 16 or over.

MONTHLY RATES AND CHARGES

Class A - OESP Credit

(a) account-holders with a household income of \$28,000 or less living in a household of one or two persons;

(b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of three persons;

(c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of five persons;

(d) account-holders with a household income of between \$48,001 and \$52,000 living in a household of seven or more persons;

but does not include account-holders in Class E.

(30.00)

\$

| Class B - OESP Credit | \$ (34.00) |
|---|---------------|
| (a) account-holders with a household income of \$28,000 or less living in a household of three persons; | |
| (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of four persons; | |
| (c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of six persons; | |
| but does not include account-holders in Class F. | |
| | |
| Class C - OESP Credit | \$ (38.00) |
| (a) account-holders with a household income of \$28,000 or less living in a household of four persons; | |
| (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of five persons; | |
| (c) account-holders with a household income of between \$39,001 and \$48,000 living in a household of seven or more persons; | |
| but does not include account-holders in Class G. | |
| Class D - OESP Credit | \$ (42.00) |
| (a) account-holders with a household income of \$28,000 or less living in a household of five persons; and | |
| (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of six persons; | |
| but does not include account-holders in Class H. | |
| Class E - OESP Credit | \$ (45.00) |
| Class E comprises account-holders with a household income and household size described under Class A who also meet any of the following conditions: | |
| (a) the dwelling to which the account relates is heated primarily by electricity; | |
| (b) the account-holder or any member of the account-holder's household is an Aboriginal person; or | |
| (c) the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates. | |
| Class F - OESP Credit | \$ (50.00) |
| (a) account-holders with a household income of \$28,000 or less living in a household of six or more persons; | |
| (b) account-holders with a household income of between \$28,001 and \$39,000 living in a household of seven or more persons; or | |
| (c) account-holders with a household income and household size described under Class B who also meet any of the following conditions: | |
| i. the dwelling to which the account relates is heated primarily by electricity; | |
| ii. the account-holder or any member of the account-holder's household is an Aboriginal person; or | |
| iii. the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates. | |
| Class G - OESP Credit | \$ (55.00) |
| Class G comprises account-holders with a household income and household size described under Class C who also meet any of the following conditions: | |
| (a) the dwelling to which the account relates is heated primarily by electricity; | |
| (b) the account-holder or any member of the account-holder's household is an Aboriginal person; or | |

(c) the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates.

| Class H - OESP Credit | \$ (60.00) |
|--|---------------|
| Class H comprises account-holders with a household income and household size described under Class D who also meet any of the following conditions: | |
| (a) the dwelling to which the account relates is heated primarily by electricity; | |
| (b) the account-holder or any member of the account-holder's household is an Aboriginal person; or | |
| (c) the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates. | |
| Class I - OESP Credit | \$ (75.00) |
| Class I comprises account-holders with a household income and household size described under paragraphs (a) or (b) of Class F who also meet any of the following conditions: | |
| (a) the dwelling to which the account relates is heated primarily by electricity; | |
| | |

(b) the account-holder or any member of the account-holder's household is an Aboriginal person; or

(c) the account-holder or any member of the account-holder's household regularly uses, for medical purposes, an electricity-intensive medical device at the dwelling to which the account relates.

Effective Date January 1, 2017 Implementation Date February 1, 2017

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2016-0077

GENERAL SERVICE LESS THAN 50 kW SERVICE CLASSIFICATION

This classification applies to a non residential account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

MONTHLY RATES AND CHARGES - Delivery Component

PROPOSED TARIFF OF RATES AND CHARGES

Effective Date January 1, 2017 Implementation Date February 1, 2017

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2016-0077

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The level of the consumption will be agreed to by the distributor and the customer, based on detailed manufacturer information/ documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

MONTHLY RATES AND CHARGES - Delivery Component

| Service Charge (per device) | \$ | 8.47 |
|---|--------|----------|
| Distribution Volumetric Rate | \$/kWh | 0.0132 |
| Low Voltage Service Rate | \$/kWh | 0.00006 |
| Rate Rider for Disposition of Deferral/Variance Accounts (2017) - effective until December 31, 2017 | \$/kWh | (0.0025) |
| Rate Rider for Disposition of Global Adjustment | \$/kWh | 0.0016 |
| Applicable only for Non-RPP Class B Consumers | | |

EB-2016-0077

SENTINEL LIGHTING SERVICE CLASSIFICATION

This classification applies to safety/security lighting with a Residential, General Service or Large Use customer. This is typically exterior lighting, and often unmetered. Consumption is estimated based on the equipment rating and estimated hours of use. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES – Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

Effective Date January 1, 2017 Implementation Date February 1, 2017

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2016-0077

RETAIL SERVICE CHARGES (if applicable)

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's License or a Code of Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted that this schedule does contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Debt Retirement Charge, the Global Adjustment, and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity.

| One-time charge, per retailer, to establish the service agreement between the distributor and the retailer Monthly Fixed Charge, per retailer Monthly Variable Charge, per customer, per retailer Distributor-consolidated billing monthly charge, per customer, per retailer Retailer-consolidated billing monthly credit, per customer, per retailer Service Transaction Requests (STR) | \$ \$/cust. \$/cust. \$/cust. | 100.00 20.00 0.50 0.30 (0.30) |
|---|--|---|
| Request fee, per request, applied to the requesting party | \$ | 0.25 |
| Processing fee, per request, applied to the requesting party Request for Customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail Settlement Code directly to retailers and customers, if not delivered electronically through the Electronic Business Transaction (EBT) system, applied to the requesting party | \$ | 0.50 |
| Up to twice a year | \$ | no charge |
| More than twice a year, per request (plus incremental delivery costs) | \$ | 2.00 |

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

| Total Loss Factor – Secondary Metered Customer < 5,000 kW | 1.0379 |
|---|--------|
| Total Loss Factor – Secondary Metered Customer > 5,000 kW | 1.0160 |
| Total Loss Factor – Primary Metered Customer < 5,000 kW | 1.0276 |
| Total Loss Factor – Primary Metered Customer > 5,000 kW | 1.0060 |

Appendix C: 2017 Revenue Requirement Work Form

| Version | 7.02 |
|---------|------|
| Version | 1.02 |

| Utility Name | Horizon Utilities Corporation | |
|--------------------|----------------------------------|---|
| Service Territory | Hamilton & St. Catharines | |
| Assigned EB Number | EB-2016-0077 | |
| Name and Title | Indy Butany-DeSouza | 1 |
| Phone Number | 905-317-4765 | |
| Email Address | indy.butany@horizonutilities.com | |

The RRWF has been enhanced commencing with 2017 rate applications to provide estimated base distribution rates. The enhanced RRWF is not intended to replace a utility's formal rate generator model which should continue to be the source of the proposed rates as well as the final ones at the conclusion of the proceeding. The load forecasting addition made to this model is intended to be demonstrative only and does not replace the information filed in the utility's application. In an effort to minimize the incremental work required from utilities, the cost allocation and rate design additions to this model do in fact replace former appendices that were required to be filed as part of the cost of service (Chapter 2) filing requirements.

Notes:

General Data inputs are required on Sheets 3. Data from Sheet 3 will automatically complete calculations on sheets 4 through 9 (Rate Base through Revenue Requirement). Sheets 4 through 9 do not require any inputs except for notes that the Applicant may wish to enter to support the results. Pale green cells are available on sheets 4 through 9 to enter both footnotes beside key cells and the related text for the notes at the bottom of each sheet.

(1) All inputs are in dollars (\$) except where inputs are individually identified as percentages (%)

- (2) Data in column E is for Application as originally filed. For updated revenue requirement as a result of interrogatory responses, technical or settlement conferences, etc., use column M and Adjustments in column I
- ⁽³⁾ Net of addbacks and deductions to arrive at taxable income.
- (4) Average of Gross Fixed Assets at beginning and end of the Test Year
- ⁽⁵⁾ Average of Accumulated Depreciation at the beginning and end of the Test Year. Enter as a negative amount.
- (6) Select option from drop-down list by clicking on cell M10. This column allows for the application update reflecting the end of discovery or Argument-in-Chief. Also, the outcome of any Settlement Process can be reflected.
- (7) Input total revenue offsets for deriving the base revenue requirement from the service revenue requirement
- (8) 4.0% unless an Applicant has proposed or been approved for another amount.
- (9) The default Working Capital Allowance factor is 7.5% (of Cost of Power plus controllable expenses), per the letter issued by the Board on June 3, 2015. Alternatively, a WCA factor based on lead-lag study, with supporting rationale could be provided.

Tracking Form

The first row shown, labelled "Original Application", summarizes key statistics based on the data inputs into the RRWF. After the original application filing, the applicant provides key changes in capital and operating expenses, load forecasts, cost of capital, etc., as revised through the processing of the application. This could be due to revisions or responses to interrogatories. The last row shown is the most current estimate of the cost of service data reflecting the original application and any updates provided by the applicant distributor (for updated evidence, responses to interrogatories, updated evidence, responses to interrogatories, etc.)

Please ensure a Reference (Column B) and/or Item Description (Column C) is entered. Please note that unused rows will automatically be hidden and the PRINT AREA set when the PRINT BUTTON on Sheet 1 is activated.

(1) Short reference to evidence material (interrogatory response, undertaking, exhibit number, Board Decision, Code, Guideline, Report of the Board, etc.)

(2) Short description of change, issue, etc.

This Workbook Model is protected by copyright and is being made available to you solely for the purpose of filing your rate application. You may use and copy this model for that purpose, and provide a copy of this model to any person that is advising or assisting you in that regard. Except as indicated above, any copying, reproduction, publication, sale, adaptation, translation, modification, reverse engineering or other use or dissemination of this model without the express written consent of the Ontario Energy Board is prohibited. If you provide a copy of this model to a person that is advising or assisting you in preparing the application or reviewing your draft rate order, you must ensure that the person understands and agrees to the restrictions noted above.

While this model has been provided in Excel format and is required to be filed with the applications, the onus remains on the applicant to ensure the accuracy of the data and the results.

Instructions

Purpose

The purpose of this workbook is to calculate the estimated Payment in Lieu of Taxes (PILs) for the Test Year. The calculation of PILs for the Test Year is on tab T0 and is based on the inputs on the other tabs.

Tab S Summary is a summary of the amounts to be transferred to the Data Input Sheet of the Revenue Requirement Workform.

Methodology

To calculate the PILs for the Test Year:

 input the balances from the income tax return of the Historical Year in tabs H1 to H13.
 input the balances for the subsequent two (2) years (the Bridge Year and the Test Year). Inputs should include:

 non-deductible expenses (Schedule 1 - B1 and T1)

- capital additions (Schedule 8 - B8 and T8)

- cumulative eligible expenditures (Schedule 10 B10 and T10)
- non-deductible reserves (Schedule 13 B13 and T13)

3) make any other adjustments and inputs required so that the PILs amount calculated for the Test Year on tab T0 is reasonable.

Other Notes

Tabs H1 to H13 relate to the Historical Year. Tabs B1 to B13 relate to the Bridge Year. Tabs T1 to T13 relate to the Test Year.

The amounts on tabs H1 to H13 should agree to the tax return filed with the Canada Revenue Agency. Any CRA audit adjustments or corrections should also be reflected.

It is assumed the net income before tax for the Test Year is equal to the Return on Equity. Return on Equity is calculated on tab A.

On tab "A. Data Input Sheet", input the "Rate Base" amount and "Return on Rate Base" amounts.

For the 2017 Application, the "Test Year" is 2017, the "Historical Year" is 2015, and the "Bridge Year" is 2016.

Updated: June 14, 2016

| Combined federal and Ontario | 26.50% | 26.50% | 26.50% | 26.50% | 26.50% | 26.50% |
| Federal & Ontario Small Business Federal small business threshold Ontario Small Business Threshold | 500,000 500,000 | 500,000 500,000 | 500,000 500,000 | 500,000 500,000 | 500,000 500,000 | 500,000 500,000 |
| Federal small business rate | 11.00% | 11.00% | 11.00% | 11.00% | 10.50% | 10.50% |
| Ontario small business rate | 4.50% | 4.50% | 4.50% | 4.50% | 4.50% | 4.50% |

Notes

1. The Ontario Energy Board's proxy for taxable capital is rate base.

2. Regarding the small business deduction, if applicable,

a. If taxable capital exceeds \$15 million, the small business rate will not be applicable.

b. If taxable capital is below \$10 million, the small business rate would be applicable.

c. If taxable capital is between \$10 million and \$15 million, the appropriate small business rate will be calculated.

2017 Deferral/Variance Account Workform

If a Class B customer switched into Class A during the 2015 rate year, click this check box:

Identify the total consumption for former Class B customers prior to becoming Class A customers (i.e. Jan 1. to June 30, 2015) in column Q.

In the green shaded cells, enter the data related to the proposed load forecast. Do not enter data for the MicroFit class.

*For new Class A customers (who became Class A in 2015), add their consumption only related to July to December period.

¹ Residual Account balance to be allocated to rate classes in proportion to the recovery share as established when rate riders were implemented.

² The proportion of customers for the Residential and GS<50 Classes will be used to allocate Account 1551.

| Account 1589 reference calculation by customer and consumption | |
|--|----------|
| Account 1589 / Number of Customers | \$10.89 |
| 1589/total kwh | \$0.0005 |

This tab allocates the GA balance to former Class B customers who contributed to the current GA balance but are now Class A customers. The tables below calculate specific amounts for each customer who made the change. Consistent with both decisions for 2016 rates and EDDVAR, distributors are generally expected to settle the amount through 12 equal adjustments to bills. A one-time settlement is acceptable if the affected customer has expressed a clear preference for this approach. (see Filing Requirements section 2.9.5.1)

Year of Group 1 Account Balance Last Disposed

(e.g. If in the 2015 EDR process, you received approval to dispose the GA variance account balance as of December 31, 2013, please enter 2013 in cell B16.)

Appendix 2-P 2017

Please complete the following four tables.

A) Allocated Costs

| Classes | sts Allocated om Previous Study | % | i | osts Allocated in Test Year Study (Column 7A) | % | | |
|--------------------------------|---|---------|----|--|---------|--|--|
| Residential | \$ 57,738,673 | 56.41% | \$ | 73,546,733 | 61.05% | | |
| GS < 50 kW | \$ 11,823,974 | 11.55% | \$ | 16,374,167 | 13.59% | | |
| GS > 50 kW | \$ 19,773,789 | 19.32% | \$ | 23,599,815 | 19.59% | | |
| Large Use (1) | \$ 2,257,890 | 2.21% | \$ | 2,316,457 | 1.92% | | |
| Large Use (2) | \$ 6,577,075 | 6.43% | \$ | 1,221,261 | 1.01% | | |
| Street Lighting | \$ 2,963,902 | 2.90% | \$ | 1,784,408 | 1.48% | | |
| Sentinel Lighting | \$ 57,144 | 0.06% | \$ | 48,666 | 0.04% | | |
| Unmetered Scattered Load (USL) | \$ 533,639 | 0.52% | \$ | 420,021 | 0.35% | | |
| Standby | \$ 620,650 | 0.61% | \$ | 1,148,606 | 0.95% | | |
| Total | \$ 102,346,736 | 100.00% | \$ | 120,460,134 | 100.00% | | |

Notes

1 Customer Classification - If proposed rate classes differ from those in place in the previous Cost Allocation study, modify the rate classes to match the current application as closely as possible.

2 Host Distributors - Provide information on embedded distributor(s) as a separate class, if applicable. If embedded distributor(s) are billed as customers in a General Service class, include the allocated cost and revenue of the embedded distributor(s) in the applicable class. Also complete Appendix 2-Q.

3 Class Revenue Requirements - If using the Board-issued model, in column 7A enter the results from Worksheet O-1, Revenue Requirement (row 40 in the 2013 model). This excludes costs in deferral and variance accounts. Note to Embedded Distributor(s), it also does not include Account 4750 - Low Voltage (LV) Costs.

B) Calculated Class Revenues

| | | Column 7B | | Column 7C | | Column 7D | | Column 7E |
|----------------------------------|----|----------------|----|---|----|------------------------|----|-------------------------|
| Classes (same as previous table) | (1 | approved rates | | L.F. X current approved rates X (1 + d) | | LF X proposed rates | | iscellaneous Revenue |
| Residential | \$ | 70,394,953 | \$ | 70,748,927 | \$ | 70,675,047 | \$ | 3,827,017 |
| GS < 50 kW | \$ | 15,456,277 | \$ | 15,533,997 | \$ | 15,533,997 | \$ | 678,672 |
| GS > 50 kW | \$ | 21,623,481 | \$ | 21,732,212 | \$ | 21,732,212 | \$ | 960,828 |
| Large Use (1) | \$ | 2,475,185 | \$ | 2,487,631 | \$ | 2,485,034 | \$ | 140,599 |
| Large Use (2) | \$ | 803,269 | \$ | 807,308 | \$ | 1,017,267 | \$ | 20,805 |
| Street Lighting | \$ | 2,099,095 | \$ | 2,109,650 | \$ | 1,977,109 | \$ | 45,160 |
| Sentinel Lighting | \$ | 42,432 | \$ | 42,645 | \$ | 42,645 | \$ | 2,890 |
| Unmetered Scattered Load (USL) | \$ | 449,590 | \$ | 451,851 | \$ | 451,379 | \$ | 28,862 |
| Standby | \$ | 786,021 | \$ | 789,974 | \$ | 789,505 | \$ | 51,104 |
| Total | \$ | 114,130,303 | \$ | 114,704,196 | \$ | 114,704,196 | \$ | 5,755,938 |

Notes:

1 Columns 7B to 7D - LF means Load Forecast of Annual Billing Quantities (i.e. customers or connections X 12, (kWh or kW, as applicable). Revenue Quantities should be net of Transformer Ownership Allowance. Exclude revenue from rate adders and rate

2 Columns 7C and 7D - Column total in each column should equal the Base Revenue Requirement

3 Columns 7C - The Board cost allocation model calculates "1+d" in worksheet O-1, cell C21. "d" is defined as Revenue Deficiency/ Revenue at Current Rates.

4 Columns 7E - If using the Board-issued Cost Allocation model, enter Miscellaneous Revenue as it appears in Worksheet O-1, row 19.

C) Rebalancing Revenue-to-Cost (R/C) Ratios

| Class | Previously Approved Ratios Most Recent Year: | Status Quo Ratios (7C + 7E) / (7A) | Proposed Ratios (7D + 7E) / (7A) | Policy Range | |
|--------------------------------|---|--|-------------------------------------|--------------|--|
| | 2011 | (, | (| | |
| | % | % | % | % | |
| Residential | 111.76% | 101.40 | 101.30 | 85 - 115 | |
| GS < 50 kW | 104.52% | 99.01 | 99.01 | 80 - 120 | |
| GS > 50 kW | 85.35% | 96.16 | 96.16 | 80 - 120 | |
| Large Use (1) | 93.73% | 113.46 | 113.35 | 85 - 115 | |
| Large Use (2) | 45.74% | 67.81 | 85.00 | 85 - 115 | |
| Street Lighting | 75.01% | 120.76 | 113.33 | 80 - 120 | |
| Sentinel Lighting | 61.98% | 93.57 | 93.57 | 80 - 120 | |
| Unmetered Scattered Load (USL) | 131.61% | 114.45 | 114.34 | 80 - 120 | |
| Standby | 79.83% | 73.23 | 73.19 | Undefined | |
| 0 | | | | | |

Notes

1 Previously Approved Revenue-to-Cost Ratios - For most applicants, Most Recent Year would be the third year of the IRM 3 period, e.g. if the applicant rebased in 2009 with further adjustments over 2 years, the Most recent year is 2011. For applicants whose most recent rebasing year is 2006, the applicant should enter the ratios from their Informational Filing.

2 Status Quo Ratios - The Board's updated Cost Allocation Model yields the Status Quo Ratios in Worksheet O-1. Status Quo means "Before Rebalancing".

D) Proposed Revenue-to-Cost Ratios

| Class | | Propo | sed Revenue-to-Cost | Ratios | | Policy |
|--------------------------------|--------|--------|---------------------|--------|------|-----------|
| | 2015 | 2016 | 2017 | 2018 | 2019 | Range |
| | % | % | % | % | % | % |
| Residential | 103.11 | 101.47 | 101.30 | | | 85 - 115 |
| GS < 50 kW | 98.50 | 98.87 | 99.01 | | | 80 - 120 |
| GS > 50 kW | 93.51 | 94.92 | 96.16 | | | 80 - 120 |
| Large Use (1) | 115.00 | 113.50 | 113.35 | | | 85 - 115 |
| Large Use (2) | 115.00 | 86.53 | 85.00 | | | 85 - 115 |
| Street Lighting | 82.05 | 120.00 | 113.33 | | | 80 - 120 |
| Sentinel Lighting | 100.00 | 95.02 | 93.57 | | | 80 - 120 |
| Unmetered Scattered Load (USL) | 120.00 | 114.42 | 114.34 | | | 80 - 120 |
| Standby | 72.35 | 74.16 | 73.19 | | | Undefined |
| | | | | | | 0 |
| 0 | | | | | | |

Note

1 The applicant should complete Table D if it is applying for approval of a revenue to cost ratio in 2013 that is outside the Board's policy range for any customer class. Table (d) will show the information that the distributor would likely enter in the IRM model) in 2013. In 2014 Table (d), enter the planned ratios for the classes that will be 'Change' and 'No Change' in 2014 (in the current Revenue Cost Ratio Adjustment Workform, Worksheet C1.1 'Decision – Cost Revenue Adjustment', column d), and enter TBD for class(es) that will be entered as 'Rebalance'.
