THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The OEB has conducted a review of Sioux Lookout's application and determined through its Decision on Scope of Review that it will hold a written hearing to consider specific issues in the application filed by Sioux Lookout Hydro. The OEB's [Decision on Scope of Review](#) sets out the issues for which the OEB is seeking written submissions. The OEB will consider these written submissions and will decide what rate change will be allowed.

Distributors such as Sioux Lookout Hydro typically apply for a full review of their rates every five years. Any rate changes for the years in between are made by applying an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. You may not get notice of future rate changes made by applying the formula.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
