Dear Ms. Long,

Re: Notice of Revised Proposal to Amend the Standard Supply Service Code - Ontario Energy Board File Number: EB-2020-0152

On August 25, 2020, the Ontario Energy Board (“OEB”) gave notice of proposed amendments to the Standard Supply Service Code (“SSSC”) to enable electricity consumers on the Regulated Price Plan to opt out of time-of-use (“TOU”) prices and elect to be charged on the basis of tiered pricing.

Hydro One Networks Inc. (“Hydro One”) has reviewed the revised amendments to the SSSC along with the OEB’s responses to comments received from stakeholders and has no further comments to provide at this time. Hydro One is supportive of the steps being proposed by the OEB to enable customer choice as this is consistent with the views expressed by Hydro One’s customers.

Please do not hesitate to contact me further in respect of this matter.

Sincerely,

A handwritten signature in black ink that reads "H. Andre".
