DECISION AND INTERIM RATE ORDER

EB-2020-0296

EPCOR NATURAL GAS LIMITED PARTNERSHIP- AYLMER

**Application for quarterly rate adjustment mechanism commencing
January 1, 2021**

By Delegation, before: Pascale Duguay

December 18, 2020

INTRODUCTION AND PROCESS

EPCOR Natural Gas Limited Partnership (ENGLP) filed an application on December 10, 2020 with the Ontario Energy Board (OEB) for an order or orders approving or fixing just and reasonable rates and other charges for the sale and distribution of natural gas commencing January 1, 2021 for its Aylmer operation (the Application).

The Application was made pursuant to section 36(1) of the *Ontario Energy Board Act, 1998* and in accordance with the Quarterly Rate Adjustment Mechanism (QRAM) established by the OEB for dealing with changes in gas costs.¹

ENGLP provided written evidence in support of the proposed changes outlined in the application. ENGLP provided the application and pre-filed evidence to all parties of record in ENGLP Aylmer's last rates proceeding.²

Parties wishing to file comments on the Application were required to file them with the OEB by December 15, 2020. No comments were received.

ENGLP Aylmer's application reflects an increase in the forecast cost of natural gas prices over the next 12 months. The application also reflects a true-up between actual and forecast natural gas prices for prior periods.

OEB FINDINGS

The OEB approves the Application as filed. ENGLP Aylmer's gas supply related costs were approved on an interim basis in a previous proceeding³ pending the review of certain local gas supply contracts. ENGLP Aylmer's gas supply related rates are now approved on a final basis as the OEB has now completed its review of the local gas supply contract as part of the gas supply plan review process and no concerns were identified. However, the distribution rates will remain interim until such time that OEB approval is granted for ENGLP Aylmer's 2021 Incentive Rate Mechanism application.⁴

ENGLP Aylmer's rates will be adjusted effective January 1, 2021 to reflect an increase in forecast natural gas prices and prospective recovery of the projected twelve-month balances of the gas supply deferral accounts for the period ending December 2021. The

¹ EB-2008-0106

² EB-2018-0336

³ EB-2019-0288

⁴ EB-2020-0234

reference price will also be adjusted to reflect the increase in forecast natural gas prices.

The QRAM is intended to strike a balance between ensuring that consumers are receiving appropriate price signals which reflect natural gas market prices, and protecting the interest of consumers that purchase their gas from the distributor by reducing, to some extent, the volatility in the price of natural gas. Natural gas commodity prices charged by ENGLP are based on:

- a market price forecast for the commodity over the next 12 months
- a true-up between actual and forecast commodity prices for prior periods as actual costs are passed on to customers without a mark-up. By design, the QRAM includes smoothing of price volatility by spreading this difference over a 12-month period.

The bill impact of this Application for a typical residential customer who uses 1,780 cubic metres of natural gas per year and who purchases its gas supply from ENGLP is an increase of approximately \$4 on an annual basis.

When taking into account the expiry of a temporary rate adjustment related to the disposition certain deferral and variance account balances, the total annual bill impacts for a typical residential customer who uses 1,780 cubic metres of natural gas per year and who purchases its gas supply from ENGLP is a decrease of approximately \$6 on an annual basis.

IT IS ORDERED THAT:

1. The rates approved for ENGLP Aylmer as part of the decision and interim rate order EB-2020-0218, dated September 24, 2020, shall be superseded by the rates as provided in Appendix "A" and attached to this Decision and Interim Rate Order.
2. The rates shall be effective January 1, 2021 and shall be implemented in ENGLP's first billing cycle commencing in January 2021.
3. The reference price for use in determining the amounts to be recorded in the Purchase Gas Commodity Variance Account (Account No.179-27) shall increase by \$0.005026 per m³ from the previous OEB approved level of \$0.128209 per m³

to **\$0.133235** per m³ as shown in Schedule “A” of Appendix “A” attached to this Decision and Interim Rate Order.

4. The balance in the Gas Purchase Rebalancing Account shall be prospectively cleared. The resulting gas supply charge will increase from the previous OEB approved level of \$0.133077 per m³ to **\$0.135143** per m³ as noted in Schedule “A” of Appendix “A” attached to this Decision and Interim Rate Order.
5. The appropriate form of customer notice as set out in Appendix “C” shall accompany each customer’s first bill or invoice following the implementation of this Decision and Interim Rate Order.
6. ENGLP shall pay the OEB’s costs incidental to this proceeding upon receipt of the OEB’s invoice.

EPCOR NATURAL GAS LIMITED PARTNERSHIP

RATE 3 - Special Large Volume Contract Rate

Rate Availability

Entire service area of the company.

Eligibility

A customer who enters into a contract with the company for the purchase or transportation of gas:

- a) for a minimum term of one year;
- b) that specifies a combined daily contracted demand for firm and interruptible service of at least 700 m³; and
- c) a qualifying annual volume of at least 113,000 m³.

Rate

1. Bills will be rendered monthly and shall be the total of:

- a) A Monthly Customer Charge⁽¹⁾:

A Monthly Customer Charge of \$201.00 for firm or interruptible customers; or
A Monthly Customer Charge of \$223.00 for combined (firm and interruptible) customers.
- b) A Monthly Demand Charge:

A Monthly Demand Charge of 29.0974 cents per m³ for each m³ of daily contracted firm demand.
- c) A Monthly Delivery Charge:
 - (i) A Monthly Firm Delivery Charge for all firm volumes of 3.6011 cents per m³,
 - (ii) A Monthly Interruptible Delivery Charge for all interruptible volumes to be negotiated between the company and the customer not to exceed 10.5118 cents per m³ and not to be less than 7.6156 per m³.
- d) Carbon Charges

- Federal Carbon Charge (if applicable)	5.8700 cents per m ³
- Facility Carbon Charge	0.0027 cents per m ³
- e) Gas Supply Charge and System Gas Refund Rate Rider (if applicable) Schedule A
- f) Overrun Gas Charges:

Overrun gas is available without penalty provided that it is authorized by the company in advance. The company will not unreasonably withhold authorization.

If, on any day, the customer should take, without the company's approval in advance, a volume of gas in excess of the maximum quantity of gas which the company is obligated to deliver to the customer on such day, or if, on any day, the customer fails to comply with any curtailment notice reducing the customer's take of gas, then,

- (i) the volume of gas taken in excess of the company's maximum delivery obligation for such day, or
- (ii) the volume of gas taken in the period on such day covered by such curtailment notice (as determined by the company in accordance with its usual practice) in excess of the volume of gas authorized to be taken in such period by such curtailment notice,

as the case may be, shall constitute unauthorized overrun volume.

Any unauthorized firm overrun gas taken in any month shall be paid for at the Rate 3 Firm Delivery Charge in effect at the time the overrun occurs. In addition, the Contract Demand level shall be adjusted to the actual maximum daily volume taken and the Demand Charges stated above shall apply for the whole contract year, including retroactively, if necessary, thereby requiring recomputation of bills rendered previously in the contract year.

Any unauthorized interruptible overrun gas taken in any month shall be paid for at the Rate 1 Delivery Charge in effect at the time the overrun occurs plus any Gas Supply Charge applicable.

For any unauthorized overrun gas taken, the customer shall, in addition, indemnify the company in respect of any penalties or additional costs imposed on the company by the company's suppliers, any additional gas cost incurred or any sales margins lost as a consequence of the customer taking the unauthorized overrun volume.

2. In negotiating the Monthly Interruptible Commodity Charge referred to in 1(c)(ii) above, the matters to be considered include:

- a) The volume of gas for which the customer is willing to contract;
- b) The load factor of the customer's anticipated gas consumption, the pattern of annual use, and the minimum annual quantity of gas which the customer is willing to contract to take or in any event pay for;
- c) Interruptible or curtailment provisions; and
- d) Competition.

3. In each contract year, the customer shall take delivery from the company, or in any event pay for it if available and not accepted by the customer, a minimum volume of gas as specified in the contract between the parties. Overrun volumes will not contribute to the minimum volume. The rate applicable to the shortfall from this minimum shall be 3.1530 cents per m³ for firm gas and 5.4412 cents per m³ for interruptible gas.

4. The contract may provide that the Monthly Demand Charge specified in Rate Section 1 above shall not apply on all or part of the daily contracted firm demand used by the customer during the testing, commissioning, phasing in, decommissioning and phasing out of gas-using equipment for a period not to exceed one year (the transition period). In such event, the contract will provide for a Monthly Firm Delivery Commodity Charge to be applied on such volume during the transition of 5.7163 cents per m³ and a gas supply commodity charge as set out in Schedule A, if applicable. Gas purchased under this clause will not contribute to the minimum volume.

⁽¹⁾ Aggregated within Monthly Fixed Charge is the amount of one dollar per month in accordance with Bill 32 and Ontario Regulation 24/19.

Bundled Direct Purchase Delivery

Where a customer elects under this rate schedule to directly purchase its gas from a supplier other than EPCOR, the customer or their agent must enter into a Bundled T-Service Receipt Contract with EPCOR for delivery of gas to EPCOR. Bundled T-Service Receipt Contract rates are described in rate schedule BT1. The gas supply charge will not be applicable to customers who elect said Bundled T transportation service.

IMPORTANT INFORMATION ABOUT YOUR GAS BILL

Gas Commodity:

On all bills rendered by EPCOR on or after January 1, 2021, the price we charge for the gas commodity and transportation portion of your bill will be increasing by \$0.002066 per cubic meter to \$0.135143 per cubic meter. The Ontario Energy Board has approved this change to reflect the prices that EPCOR expects that it will be paying to its gas suppliers through to the end of December, 2021. On your gas bill this cost is on the line entitled "Gas Commodity".

As a regulated utility, EPCOR is permitted to recover what it pays for the purchase of gas plus any costs reasonably associated with this purchase but with no mark up or 'profit'. The price the utility charges you is based on the forecasted gas and transportation costs to EPCOR, which are periodically reviewed by the OEB and reconciled with actual costs. The gas commodity portion gets adjusted regularly throughout the year as the price of the gas commodity changes.

How will the price change impact you? That will depend on the amount of gas that you use. For a typical residential customer who consumes approximately 1,780 cubic meters of gas annually, this price change will cause your annual heating costs to increase by approximately \$4 per year. For customers who have arranged to have their gas supplied by a gas marketer/broker, the price may or may not change depending on the terms of the contract the customer has with the gas marketer/broker.

If you have any questions about the changes in rates or any other item that appears on your bill, please feel free to call our office at 519-773-5321.

We would like to thank you for choosing to make natural gas your energy of choice.
