Brantford, ON N3T 5N8

Dear Ms. Stefan:

**Re: Brantford Power Inc. (Brantford Power)
Delay in Filing 2022 Cost of Service Application
Ontario Energy Board File Number: EB-2021-0009**

This letter is in response to your letter dated April 30, 2021, requesting an extension to the date for the filing of Brantford Power's cost of service application from April 30, 2021 to May 7, 2021. In its letter Brantford Power noted that it was requesting an extension because "the ongoing COVID-19 pandemic has added incremental challenges to the application process, both through the current working from home environment and by shifting focus from key internal subject matter experts involved in the COS."

On May 6, 2021, Brantford Power filed its cost of service application. By e-mail dated May 7, 2021, Brantford Power informed the OEB that it had discovered an issue with the revenue requirement calculations and advised that the OEB disregard the May 6, 2021, filing. Brantford Power noted that it was working to submit a new application and evidence.

The OEB grants Brantford Power's request for an extension. Although Brantford Power's original request was for an extension to May 7, 2021, the OEB understands Brantford Power now expects to file a "new application and evidence when the updated full documentation is available." The OEB anticipates that the OEB panel hearing the application will take into consideration any COVID-19 related delays in setting the effective date for Brantford Power's 2022 rates.

Yours truly,
