Learn more. Have your say.

Elexicon Energy Inc. has applied to the Ontario Energy Board to raise its electricity distribution rates, effective January 1, 2022, for its Veridian rate zone and Whitby rate zone. If the application is approved as filed, a typical residential customer and a typical general service customer of Elexicon Energy Inc. in each of the rate zones would see the following increase:

Veridian Rate Zone

Rate Class	Monthly Bill Impact
Residential 750 kWh	\$1.95 per month
General Service less than 50kW (2,000 kWh)	\$4.12 per month

Whitby Rate Zone

Rate Class	Monthly Bill Impact
Residential 750 kWh	\$0.29 per month
General Service less than 50kW (2,000 kWh)	\$1.04 per month

Other customers, including businesses, may also be affected.

The requested rate increases are set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. The requested rate change for the Veridian rate zone includes Elexicon Energy Inc.'s request for incremental capital funding for two projects, namely the construction of a transformer station and the relocation of overhead and underground infrastructure to accommodate the construction of the Durham-Scarborough Bus Rapid Transit project.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Elexicon Energy's application. We will determine whether the company has used the applicable models and formulas required by the OEB and consider Elexicon Energy's request for incremental capital funding. At the end of this hearing, the OEB will decide what, if any, rate increases will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
