It is clear that the request from London Hydro Inc not be granted. I am a first time home buyer who can barely afford my hydro bill as it stands. We have THE highest price per province already for hydro. With so many people on the brink of collapse and with the latest pandemic, how can the panel, in good conscience, decide to increase and already ridiculously high hydro rate?

I urge the OEB to turn down this proposal from London Hydro. Not just for one person, but for the sake of all Ontario. Because if you do decide to grant the increase, the rest of Ontario will follow.
