I am a disabled person struggling to meet ends meet on ODSP. Between the cost and lack of housing, lack of any substantial increase in support amounts and raising cost of living prices, now facing a raise in electricity prices will considerably diminish my quality of life even more than it already is.

Every month I am at risk at finding myself homeless as I struggle, as many other Ontarians struggle and London Hydro posts astounding profits. The rise in rates is completely unneeded and unwanted by any customers.
