To Whom it May Concern

I am a London Hydro customer residing in London.

I just recieved information about a possible hydro rate increase?

I would like to say that I am against such an increase, we are still in the midst of a pandemic and this is the last thing we need worry about!

I am really not sure why they say we the consumer has a voice, but I am using mine.

I think these hydro executives are paid way to much and we "the consumer" have to foot the bill, I understand business and I am against the increase.

Thank you for your time

Regards

Jim Benner
