This is a pretty ridiculous application. During an ongoing pandemic no less and while nobody can afford rent/mortgages/groceries/etc. anymore but big companies like London Hydro only care about lining their pockets with anything they can squeeze out of their customers. Nothing they outlined makes this increase make any sense, it is completely uncalled for and sounds like they're trying to come up with excuses to make more money. People's wages have been stagnant the last few decades, people do not have the resources to let corporations like this bleed us dry any longer. This is a slap in the face to everyone who already pays London Hydro's excessive bills. I'd be curious to see what their CEO and board member's bonuses and salaries look like, I'm sure they'd be able to find the funds there if they need them so badly. Absolutely do not approve this application.
