I appreciate the ability to have my voice heard through this hearing. I understand that this is a hearing, because London Hydro would like to implement an increase outside of the 5 year review mark. \$2.14 seems like an inconsequential amount of money, but when you consider that everything has increased, except peoples hard earned wages, this quickly becomes a financial issue for many. I personally haven't had an increase in my earnings in 5 years. 5 years ago I made a decent wage, now we are all being nickeled and dimed to death. Allow us a break. please.
thank you for the opportunity to speak. Lisa Poole
