**January 10, 2022**

On December 17, 2021, the Ontario Energy Board (OEB) issued a Decision on Cost Eligibility in respect of the Reliability and Power Quality (RPQR) initiative, approving cost eligibility for a number of stakeholders.

On December 21, 2021, the OEB received a late request for cost eligibility from Anwaatin Inc. No objections to the request have been received from electricity distributors or transmitters, who will be responsible for paying any costs awarded in this consultation.

While Anwaatin Inc.'s request for cost eligibility was submitted past the deadline of December 8, 2021, the OEB will approve it. The OEB is satisfied that Anwaatin Inc. represents an interest or policy perspective that is relevant to this consultation, and therefore meets the eligibility criteria set out in the OEB's *Practice Direction on Cost Awards*.

Participants in this consultation are reminded of the importance of adhering to OEB-imposed deadlines.
