Board Secretary,

Re: Deferral Cost of Service Rate Application for 2023

On Dec 7, 2021, Tillsonburg Hydro Inc submitted a letter to the OEB expressing its intent to file a cost of service rate application for rates effective May 01, 2023. Since then THI had two key staff leave the organization. These positions are key resources to support the cost of service rate application and as such THI is not adequately staffed to complete a cost of service rate application for 2023.

THI is requesting to defer filing the cost of service rate application from 2023 to 2024 for rates effective Jan 01, 2024.

If you have any questions, please contact me directly.
