Dear Mr. Vollmer:

**Re: Request for Intervenor Status and Cost Eligibility
Elexicon Energy's 2023 Distribution Rate Application
Ontario Energy Board File Number: EB-2022-0024**

This letter is in response to your letter dated October 12, 2022, filed on behalf of Distributed Resource Coalition (DRC), requesting intervenor status and cost eligibility in the above proceeding.

The OEB notes that DRC's intervention request was filed after the deadline of September 2, 2022, for requesting intervention status and cost eligibility. DRC explained that it only learned of Elexicon Energy's incremental capital module (ICM) requests for a Smart Grid and DER-enabling investment on October 4, 2022 and there was further delay due to a holiday. DRC stated that it has direct and substantial interest in this proceeding. DRC confirmed it will forego its entitlement to submit its own written interrogatories.

No objection was received from Elexicon.

DRC is approved as an intervenor and is eligible to apply for an award of costs under the OEB's *Practice Direction on Cost Awards*. DRC shall accept the record of the proceeding as it stands to this point. Pursuant to the OEB's correspondence dated October 13, 2022, Elexicon's responses to interrogatories will be filed by October 18, 2022.

An updated list of participants in this proceeding is attached to this letter.

Yours truly,

Nancy Marconi
Registrar
