Attention: Ms. Nancy Marconi, Registrar

Dear Ms. Marconi:

**Re: EB-2022-0048 - London Hydro Inc. – Application for 2023 Rates**

As directed in the Board's February 24, 2023 letter, with attached draft decision and rate order, London Hydro is identifying concerns that we have with respect to the draft rate order.

The draft rate order does not appear to reflect the most recent rates approved by the Board in other regulatory proceedings, namely:

Wholesale Market Service Rate (WMS) – not including CBR should be \$0.0041/kWh instead of \$0.0030/kWh  
Rural or Remote Electricity Rate Protection Charge (RRRP) should be \$0.0007/kWh instead of \$0.0005/kWh  
Specific charge for access to the power poles should be \$36.05/pole/year rather than \$34.76/pole/year

The Rate Generator Model also does not appear to have been updated for the latest approved WMS and RRRP rates.

Yours Truly,
