Dear Ms. Marconi,

Re: Renfrew Hydro Inc. ("Renfrew Hydro") Electricity Licence ED - 2002-0577, 2024 Cost of Service Rate Application (EB – 2023-0049) Delay in Filing

Renfrew Hydro Inc. has been diligently working and preparing to file a rebasing application for distribution rates effective January 1, 2024. Unfortunately, Renfrew Hydro is unable to meet our scheduled filing date of April 28, 2023. Several recent challenges including the resignation of an employee, an ice storm, and the implementation of the new ultra low electricity rates have taken priority for our limited number of staff.

Renfrew Hydro is confident that it will be able to file its cost of service rate application with the OEB on or before May 26, 2023. Despite this application filing delay, Renfrew Hydro remains hopeful that our application can still be processed in time for rebased rates to be effective and implemented for January 1, 2024.

Please contact the undersigned if there are any questions with the foregoing.

Kind regards,

A handwritten signature in black ink that reads 'D. Lance Jefferies'.

D. Lance Jefferies, MBA, C.Tech
President
Renfrew Hydro Inc.
