Dear Nancy Marconi:

**Re: Enbridge Gas Inc. (Enbridge Gas, or the Company)
EB-2022-0200 – 2024 Rebasing – Settlement Proposal Update**

Enbridge Gas filed its 2024 Rates Application and the majority of its supporting evidence on October 31, 2022 and the balance of its evidence on November 30, 2022. In this Application, Enbridge Gas requests approval of rates for the sale, distribution, transmission, and storage of gas commencing January 1, 2024. Enbridge Gas also applies for approval of an incentive rate-making mechanism (IRM) for the years from 2025 to 2028.

In accordance with Procedural Order No. 6, Enbridge Gas filed the Partial Settlement Proposal on June 28, 2023. On July 5, 2023 OEB staff filed its submission on the settlement proposal requesting additional details regarding the dispute resolution process within the settlement reached for Issue 4. Since then, Parties have updated the wording in Issue 4 on pages 17, 22 and 23, based on OEB staff's submission. There has also been an update to page 37 to reflect the correct deferral and variance account proceeding that was contemplated. Enclosed please find the updated Partial Settlement Proposal.

Enbridge Gas has been advised that all intervenors have signed off on the last several edits to the wording of Issue 4 but for LPMA whom, Enbridge Gas understands, parties have been unable to contact to this point. Enbridge Gas has been further advised that the balance of the intervenor parties are content in the filing the updated Partial Settlement Proposal at this time to allow the OEB to review the revised settlement in respect of Issue 4 subject to advising that final sign off from LPMA has not yet been received.

Enbridge Gas will send a copy of this letter to all parties in this proceeding.
