
Annual Filing of Frequent Intervenor

Intervenor Name:

Coalition of Concerned Manufacturers and Businesses of Canada

Mandate and Objectives:

The CCMBC was formed in 2016 with a mandate to advocate for proactive and innovative policies that are conducive to manufacturing and business retention and safeguarding job growth in Canada. The creation of the organization was sparked by the high cost of electricity in Ontario and the negative impact it was having on business competitiveness in the province. Most members of CCMBC were former members of the Canadian Manufacturers and Exporters association who left that organization over their differing views and approaches towards issues facing the manufacturing community.

Membership of the Intervenor and Constituency Represented:

The CCMBC is a non-profit organization which relies on membership fees and individual donations to help protect the interests of its 418 member manufacturers and other businesses who are all electricity consumers. Most CCMBC members are Ontario manufacturers.

Programs or Activities Carried Out by the Intervenor:

The CCMBC is active on a range of business issues on behalf of its members including energy costs, environmental regulations, innovation, and taxes. It has a regular cable TV program called Canadian Innovators where it informs the public of innovations in the manufacturing and commercial sector.

Governance Structure:

The CCMBC is governed by a Board of Directors who appoint the President and members of the Management Team. Board of Directors and the Management Team hold regular meetings to discuss and approve activities, receive reports, and review and approve financial statements.
