Dear Mr. Molina:

**Re: Hydro One Sault Ste. Marie Limited Partnership
Leave to Construct Application - Sault #3 Transmission Line Refurbishment
Project
Ontario Energy Board File Number: EB-2023-0061**

Procedural Order No. 1 that was issued on August 18, 2023 contains a typographical error regarding the approved issues list in this proceeding. Procedural Order No. 1 included the following sentence:

“The types of issues that the OEB will consider in this hearing are listed in Schedule B to this Procedural Order with the exception of Issue 1: Need for the Project and standard Issue 2: Project Alternatives. Resulting from the OIC and licence condition, matters related to both project need and alternatives have already been determined and are therefore not material.”

The italicized text in this sentence is a typographical error and should not have been included.

Pursuant to its powers under Rule 41.02 of the OEB's Rules of Practice and Procedure, the OEB may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions.

The OEB has corrected Procedural Order No. 1 to remove the text noted above; all other provisions remain unchanged. The attached revised Procedural Order No. 1 supersedes and replaces the previously issued Procedural Order No. 1.

Yours truly,

Nancy Marconi
Registrar
