Dear Mr. Stevens:

**Re: Enbridge Gas Inc. – Motion to Review the December 21, 2023 Decision and Order in EB-2022-0200**  
**Ontario Energy Board File Number: EB-2024-0078**

On February 12, 2024, the Ontario Energy Board (OEB) issued an Order for a Partial Stay which (a) stayed the December 21, 2023 Decision and Order in EB-2022-0200, insofar as it pertains to the Customer Revenue Horizon Issue, until April 30, 2024 and (b) required Enbridge Gas Inc. to provide a detailed explanation of its request for a stay of the Decision and Order in respect of the Review Issues other than the Customer Revenue Horizon Issue by February 20, 2024.

In your response dated February 20, 2024, you clarified that “Enbridge Gas is not seeking any further stay at this stage of the process.” You also requested that “the OEB suspend its consideration of the Motion for Review and Variance until April 30, 2024 or such earlier date as there is clarity about any Ontario government response to the Customer Revenue Horizon Issue.”

In the interest of regulatory efficiency, the Motion will be held in abeyance until April 30, 2024. The OEB will monitor any legislative developments and may shorten or extend the abeyance period if circumstances warrant.

Yours truly,

Nancy Marconi  
Registrar
