Dear Ms. Marconi

**Re: EPCOR Natural Gas Limited Partnership (“ENGLP”)  
EB-2024-0130: Cost of Service Application  
Aylmer Service Territory - Rates effective January 1, 2025**

---

ENGLP is currently scheduled to file an application for January 1, 2025 distribution rates. This is the second cost of service for the utility under the ownership of EPCOR. ENGLP’s previous filing (EB-2018-0336) was for the term of 2020-2024.

ENGLP staff have been working diligently on the application and anticipate to file no later than June 28, 2024. The primary driver for the delay in filing is to ensure that several customer driven capital projects planned for 2025 are sufficiently scoped and reflected in the filing.

Despite the application filing delay, ENGLP is hopeful that its application can still be processed in time for rebased rates to be effective and implemented for January 1, 2025.

Sincerely,

Tim Hesselink, CPA
