Dear Mr. Stevens:

**Re: Enbridge Gas Inc. – Motion to Review and Vary the December 21, 2023
Decision and Order in EB-2022-0200
Ontario Energy Board File Number: EB-2024-0078**

The Ontario Energy Board (OEB) acknowledges receipt of your Fresh as Amended Notice of Motion to review and vary portions of the December 21, 2023 Decision and Order in the EB-2022-0200 proceeding.

In your cover letter of May 29, 2024, you asked that the OEB resume processing the motion, which had been held in abeyance (at Enbridge Gas's request) since February 12, 2024.

This will confirm that the motion is no longer in abeyance and the OEB will resume processing it. In its April 26, 2024 letter, the OEB required Enbridge Gas to file any submissions related to the abeyance period no later than June 18, 2024. This requirement has been met by Enbridge Gas's filing of the Fresh as Amended Notice of Motion.

In addition, the stay of the EB-2022-0200 Decision and Order as it pertains to the Customer Revenue Horizon Issue continues indefinitely. The stay was initially ordered on February 12, 2024 and had been extended to June 28, 2024. As you noted in your letter, Bill 165 has now received Royal Assent. Although the new provision enabling regulations that would make the Customer Revenue Horizon Issue moot has not yet been proclaimed into force, the government has indicated an intention to make

regulations setting the revenue horizon for small volume customers. The OEB will monitor developments in this regard.

Yours truly,

Nancy Marconi
Registrar
