Issues:

Supporters of Energy Probe are customers of the applicant.

Policy Interests:

Tillsonburg Hydro Inc. is a virtual utility. It has no employees. All its work is performed by employees of the Tillsonburg town or is contracted out by the town. Energy Probe is concerned that under this type of corporate organization, costs that should properly be the responsibility of the town and collected from property taxpayers may be charged to the ratepayers of Tillsonburg Hydro. It is possible that this is the reason for the significant increase in Administrative and General Expense of Tillsonburg Hydro Inc.

Hearings:

Energy Probe has no preference for a specific form of hearing.

Evidence:

Energy Probe does not intend to file evidence.

Coordination with Other Intervenors:

Energy Probe intends to coordinate its efforts with other intervenors to avoid duplication in interrogatories and technical conference questions.

Cost Awards:

Energy Probe is applying for cost award eligibility. Energy Probe is a non-profit organization which relies on individual donations to help protect the public interest. Without the prospect of an award of costs, Energy Probe's ability to participate in OEB proceedings would be very limited.

Language Preference:

Energy Probe does not intend to participate in the hearing using the French language.
