Ms. Nancy Marconi
Registrar
Ontario Energy Board
27-2300 Yonge Street
Toronto, ON M4P 1E4

Dear Ms. Marconi:

**Re: EPCOR Natural Gas Limited Partnership (“ENGLP”)
EB-2024-0266 Quarterly Rate Adjustment Mechanism (“QRAM”) Application
Aylmer Service Territory - Rates effective October 1, 2024**

In response to a question from OEB Staff, ENGLP has filed this letter to provide a brief clarification regarding page 8 of the application:

As Filed:

In addition to the system gas purchased from Enbridge noted above, ENGLP purchases gas from a local producer in its franchise area. The monthly purchases for each of the sources of supply are consistent with the figures in the annual gas supply update that was filed with the Board on May 31, 2024 (EB-2024-0139) as noted above, with the following exception.

This paragraph inadvertently included a reference from the previous QRAM application, which is not relevant to the 2024 gas supply plan. To confirm, no exceptions to the monthly purchases for each of the sources of supply have been included in the application

Updated:

In addition to the system gas purchased from Enbridge noted above, ENGLP purchases gas from a local producer in its franchise area. The monthly purchases for each of the sources of supply are consistent with the figures in the annual gas supply update that was filed with the Board on May 31, 2024 (EB-2024-0139) as noted above, ~~with the following exception.~~

Sincerely,

Tim Hesselink, CPA
