Dear Nancy Marconi:

**Re: Enbridge Gas Inc. (“Enbridge Gas”)
Ontario Energy Board (“OEB”) File No.: EB-2022-0086
Dawn to Corunna Replacement Project (“Project”)**

On November 3, 2022, the OEB issued its Decision and Order for the above noted proceeding which included, as Schedule B, several Conditions of Approval.

Per Condition 2 (b) (iii) of the Conditions of Approval, Enbridge Gas shall give the OEB notice in writing of the date on which construction was completed, no later than 10 days following the completion of construction. Enbridge Gas is therefore advising the OEB that construction was completed on October 18, 2024.

The scope of the Project described in the Company’s pre-filed evidence at Exhibit B, Tab 1, Schedule 1, Paragraph 4 indicated that 7 out of the 11 existing reciprocating compressor units at the Corunna Compressor Station would be retired and abandoned. The retirement and abandonment of these reciprocating compressor units facilitated the need for the Project and will be completed in December 2024. Enbridge Gas will notify the OEB upon completion of the aforementioned retirement and abandonment activities.

Please contact me if you have any questions.

Yours truly,
