RE: **EB-2024-0032**

I have received a copy of the Notice of Hearing and Procedural Order No.1 dated October 17, 2024, issued by the Ontario Energy Board. The Notice pertains to the application for electricity distribution rates and other charges beginning January 1, 2025, submitted by Hydro One Networks Inc.

The Notice indicates that intervenors of record in Hydro One's last cost of service application (EB-2021-0110) will be accepted as intervenors in this proceeding.

Please accept this letter as my written notice of intent to participate in this proceeding as I was an intervenor in Hydro One's last cost of service application (EB-2021-0110). Also, I understand that the Board does not intend to award costs for participating in this proceeding.

Thank you.
