BY EMAIL AND RESS

October 30, 2024

Ms. Nancy Marconi
Registrar
Ontario Energy Board
Suite 2700, 2300 Yonge Street
P.O. Box 2319
Toronto, ON M4P 1E4

Dear Ms. Marconi,

EB-2024-0034 – Hydro One Remote Communities Inc. – 2025 IRM Application – Application and Evidence

Pursuant to section 78 of the *Ontario Energy Board Act, 1998*, please find enclosed Hydro One Remote Communities Inc.'s Application and Evidence in support of the proposed 2025 distribution rates to be implemented on May 1, 2025.

An electronic copy of the Application has been submitted using the Board's Regulatory Electronic Submission System.

Sincerely,

A handwritten signature in black ink that reads "Kathleen Burke". The signature is written in a cursive, flowing style.

Kathleen Burke

APPLICATION

IN THE MATTER OF the *Ontario Energy Board Act, 1998*,
S.O.1998, c.15 (Schedule B);

AND IN THE MATTER OF an Application by Hydro One Remote
Communities Inc., for an Order or Orders made pursuant to
section 78 of the *Ontario Energy Board Act, 1998* approving just
and reasonable rates and other charges for the distribution and
generation of electricity, to be effective May 1, 2025.

1. The Applicant, Hydro One Remote Communities Inc. (Remotes), is a subsidiary of Hydro One Inc. with its head office in Toronto and its main operations in Thunder Bay. Remotes is licensed by the Ontario Energy Board (the OEB or the Board), under distribution licence ED-2003-0037 and generation licence EG-2023-0227. Remotes is a unique integrated generator and distributor in Ontario licenced to generate and distribute electricity within 12 isolated communities and 12 grid-connected communities in Northern Ontario.¹
2. In the OEB's Decision and Rate Order for Remotes' 2023 rebasing application (EB-2022-0041) set under the Price Cap Incentive Rate-setting (Price Cap IR) option, the OEB approved the use of the Price Cap IR adjustment mechanism for each of the following four years from 2024 through to 2027 inclusive.² In addition, the OEB approved the 2024-2027 Rural or Remote Electricity Rate Protection (RRRP)

¹ As of October 5, 2024. The Wataynikaneyap Power Limited Partnership (Watay) transmission project is largely complete. Three of four IPAs are expected to be connected by the end of 2024 and one potentially in 2025.

² Decision and Rate Order, EB-2022-0041, Hydro One Remote Communities Inc., March 2, 2023, p. 1.

- 1 (Remotes Operating) annual amount to be escalated by the OEB-approved inflation
2 factor in each of the ensuing years during the price cap term.³
3
- 4 3. Remotes is exempt from the competitive market. Remotes generates electricity
5 primarily at diesel generating stations in certain isolated communities in the far
6 North and distributes the electricity to customers in each community. As such,
7 Remotes is neither an embedded distributor nor a host distributor.
8
- 9 4. This is an Application for Remotes' 2025 rates for the distribution and generation of
10 electricity determined formulaically, using the Price Cap IR methodology approved
11 in EB-2022-0041.
12
- 13 5. Remotes hereby applies to the OEB for an Order approving:
14 a) The 2025 rates for residential, general service and Standard A customers, to be
15 effective on May 1, 2025, by way of an update to the May 1, 2024 rates by the
16 OEB-approved inflation factor of 3.6% as described in the OEB's letter dated
17 June 20, 2024;
18
- 19 b) The 2025 Remotes RRRP annual amount increased to \$49,927k, updated by
20 the OEB-approved inflation factor, as approved in the OEB's decision in EB-
21 2022-0041;
22
- 23 c) Continuation of the RRRP funding for Wataynikaneyap Power Limited
24 Partnership (Watay) related flow-through costs as approved by the OEB in EB-
25 2024-0176; and,
26
- 27 d) Other items or amounts that may be requested by Remotes in the course of this
28 proceeding, and as may be granted by the OEB.

³ Ibid, p. 3.

- 1 6. Approval of Remotes' 2025 rates for the distribution and generation of electricity
2 results in an increase in the total bill of 3.61% or \$3.54 per month for residential
3 customer classes consuming 750 kWh monthly and an increase in the total bill of
4 3.63% or \$9.59 per month for general service single phase customers consuming
5 2,000 kWh monthly. More information regarding the monthly bill impacts is found in
6 Exhibit A-04-01, Section 4.0.
7
- 8 7. In preparing this Application, Remotes has been guided by the OEB's Chapter 3
9 Filing Requirements for Electricity Distribution Rate Applications dated June 18,
10 2024 and the Handbook for Utility Rate Applications dated October 13, 2016 (the
11 Filing Requirements).
12
- 13 8. The written evidence filed with the OEB may be amended from time to time prior to
14 the OEB's final decision on the Application.
15

16 **NOTICE AND FORM OF HEARING REQUESTED**

- 17 9. The Application may be viewed on the internet at the following address:
18 <https://www.hydrooneremotes.ca/regulatory>
19
- 20 10. The persons affected by this Application are the ratepayers of Remotes and of
21 Rural or Remote Rate Protection. It is impractical to set out their names and
22 addresses because they are too numerous.
23
- 24 11. Remotes requests, in accordance with sections 6(4) and 21(4)(b) of the *Ontario*
25 *Energy Board Act, 1998*, that this Application be disposed of without a hearing and
26 hereby provides its consent to same. Remotes submits that in accordance with the
27 requirements of section 21(4)(b) of the *Ontario Energy Board Act, 1998*, no person
28 will be adversely affected in a material way by the outcome of this proceeding.

1 **PROPOSED EFFECTIVE DATE**

2 12. Remotes requests that the OEB's Rate Order be effective May 1, 2025. In order to
3 address the possibility that the requested Rate Order cannot be made effective by
4 that time, Remotes requests an interim Rate Order making its current distribution
5 rates and charges effective on an interim basis as of May 1, 2025, and approval of
6 foregone revenue rate riders to recover any differences between the interim rates
7 and final rates effective May 1, 2025, based on the OEB's Decision and Order
8 herein.

9
10 **CONTACT INFORMATION**

11 13. Remotes requests that a copy of all documents filed with the OEB by each party to
12 this Application be served on the Applicant and the Applicant's counsel, as follows:

SUMMARY OF OEB DIRECTIVES AND COMPLIANCE WITH PRIOR OEB DECISIONS

There are no OEB directives or undertakings from Remotes' previous proceedings that are applicable to this Application. Based on Remotes' unique circumstances, it is exempt from a number of legal and regulatory requirements imposed on most distributors as described in the following sections.

1. EXEMPTIONS FROM LEGAL REQUIREMENTS

Remotes has been approved of the following exemptions as part of its licence:

EXEMPTIONS FROM THE ELECTRICITY ACT, 1998

Remotes is exempt from the following sections of the Electricity Act, 1998:

- Subsection 26(1), non-discriminatory access;
- Subsection 26(3), to the extent that a contract entered into by Ontario Hydro contains liabilities, rights or obligations that have been transferred to Remotes; and
- Section 28, distributor's obligation to connect.

EXEMPTIONS FROM THE ONTARIO ENERGY BOARD ACT, 1998

Remotes is exempt from the following sections of the Ontario Energy Board Act, 1998:

- Section 70(2)(e), specifying methods or techniques to be applied in determining the licensee's rates;
- Section 71, restriction on business activity;
- Section 80, prohibition, generation by transmitters or distributors; and
- Section 81, prohibition, transmission or distribution by generators.

2. EXEMPTIONS FROM REGULATORY REQUIREMENTS

Non-Applicability of Stretch Factor in IRM Adjustments

The OEB has recognized that Remotes is not directly comparable to other Ontario distributors. In its Decision in EB-2013-0142, the OEB agreed that a "0% stretch factor is

1 appropriate, [as] Hydro One Remotes is unique in terms of its operating characteristics
2 and cost recovery due to the RRRP. The assignment of a higher stretch factor would not
3 provide the intended incentive to the distributor or benefit to its customers.”¹ As further
4 noted in that Decision, any surplus Remotes achieves from efficiency gains is recorded in
5 the RRRP variance account and returned to RRRP ratepayers of Ontario. Thus, the
6 imposition of a stretch factor greater than 0% serves only to lower customer rates and
7 increase the amount paid by RRRP ratepayers. This exemption continues to apply in this
8 Application.

9 10 Non-Applicability of Fixed Distribution Rates

11 Remotes’ rate classes are defined by provincial Regulation and are not based on cost. As
12 Remotes is an integrated utility, its rates are bundled to include charges for both
13 generation and distribution services. Consequently, the OEB’s approved rate design to
14 move toward all fixed distribution rates has not applied to Remotes’ customer rates, and
15 has been accepted by the OEB since 2021.²

16 17 Exemptions from Use of Certain Group 1 Accounts

18 Based on the OEB’s Decision and Rate Order for Remotes’ 2023 rebasing application
19 (EB-2022-0041), the OEB has accepted that certain Group 1 accounts (i.e. Accounts
20 1550, 1551, 1580, 1584, 1586, 1589, and 1595) and one Group 2 account (i.e. Account
21 1592) are not applicable, and that Remotes shall be exempt from Account 1588.³ On this
22 basis, consistent with past applications, the DVA Continuity Schedule and GA Analysis
23 Workform have not been applicable to Remotes.

24 25 Continuation of RRRP funding for Watay related flow-through costs

26 In the OEB’s Decision and Order in EB-2018-0190, the OEB observed that O. Reg. 442/01
27 was amended effective July 1, 2016, such that it will “allow RRRP to be used to cover a

¹ Decision and Rate Order, EB-2013-0142, Hydro One Remote Communities Inc., March 13, 2014

² Decision and Rate Order, EB-2020-0032, Hydro One Remote Communities Inc., March 25, 2021

³ Decision and Rate Order, EB-2022-0041, Hydro One Remote Communities Inc., March 2, 2023,
p. 3.

1 portion of the costs required to build and operate the lines that would connect remote First
2 Nations communities to the transmission grid”.⁴ Under the amended O. Reg. 442/01,
3 Watay transmission connection costs are a direct flow-through cost for Remotes, which
4 are funded through the RRRP.

5
6 Non-Applicability of OEB’s Rate Generator Model

7 As the OEB’s rate generator model does not accommodate Remotes’ unique
8 circumstances as outlined in the sections above, a custom rate generator model for
9 Remotes has been accepted by the OEB as part of its rate applications since 2012. In
10 addition, as the May 1, 2024 rates were simply escalated by the price cap adjustment to
11 derive the May 1, 2025 rates, no billing determinants were required in the calculations.

12
13 The 2025 IRM Checklist for this Application has been provided as Attachment 1 to this
14 Exhibit.

⁴ Decision and Order, EB-2018-0190, April 1, 2019, revised April 29, 2019, p. 9.

This page has been left blank intentionally.

2025 IRM CHECKLIST

2

3 This exhibit has been filed separately in MS Excel format.

APPLICATION SUMMARY

1.0 INTRODUCTION

As part of the 2025 Application, Remotes is requesting that the OEB approve the 2025 rates for the distribution and generation of electricity to be effective as of May 1, 2025.

Approval of the 2025 distribution rates and charges results in an increase in the total bill of 3.61% or \$3.54 per month for residential customer classes consuming 750 kWh monthly and an increase in the total bill of 3.63% or \$9.59 per month for general service single phase customers consuming 2,000 kWh monthly. More information regarding the monthly bill impacts is found in Section 4.0.

This Exhibit is organized into the following sections:

- Section 1.0 Introduction
- Section 2.0 Price Cap Index Adjustment
- Section 3.0 Annual Approved Escalation of RRRP Amount
- Section 4.0 Bill Impacts

1.1 BACKGROUND

Remotes is wholly owned by Hydro One. Remotes is an integrated generation and distribution company licensed to provide electricity within 12 isolated communities and 12 grid-connected communities in northern Ontario.¹ Consistent with the OEB's Decision in RP-1998-0001, Remotes operates as a break-even company and is 100% debt-financed with no return on equity. Remotes operates under a cost-recovery model to achieve an after-tax, break-even operating result. Any excess or deficiency in RRRP revenues necessary to break-even is added to, or drawn from, the RRRP Variance Account (RRRPVA).

¹ As of October 5, 2024. The Wataynikaneyap Power Limited Partnership (Watay) transmission project is largely complete. Three of four IPAs are expected to be connected by the end of 2024 and one potentially in 2025.

1 Remotes' rates are set under the RRRP Regulation, O. Reg. 442/01. Most of Remotes'
2 customers pay rates that are subsidized by the RRRP and are set well below the cost to
3 serve with electricity generated primarily by diesel fuel. Under Remotes' funding model,
4 rates are subsidized by government funded (Standard A) customers, capital contributions
5 from Indigenous Services Canada (ISC) and through the RRRP. These complex funding
6 arrangements with third parties, along with Remotes' unique characteristics including
7 having extremely low customer densities, harsh climate, logistical challenges related to
8 transportation, and the absence of an integrated transmission system in the majority of its
9 locations, set Remotes apart from other distributors. Multiple exemptions and exceptions
10 have thus been approved in the past.²

11

12 **2.0 PRICE CAP INDEX ADJUSTMENT**

13 In the OEB's Decision and Rate Order for Remotes' 2023 rebasing application set under
14 the Price Cap Incentive rate-setting (Price Cap IR) option (EB-2022-0041), the OEB
15 approved the use of the Price Cap IR adjustment mechanism for each of the following four
16 years from 2024 through to 2027 inclusive.³

17

18 On June 20, 2024, the OEB released the Inflation Factor to be used by electricity
19 distributors for 2025 rate applications beginning January 1, 2025. This Application reflects
20 the 3.6% Inflation Factor calculated by the OEB for electricity distributors.⁴

21

22 The Price Cap Index was applied equally to all customer classes and to all consumption
23 thresholds. The Price Cap Index has also been applied to Remotes' bundled rates and
24 thereby to both generation and distribution services.

² Exhibit A-03-01; and Decision and Rate Order, EB-2022-0041, Hydro One Remote Communities Inc., March 2, 2023.

³ Decision and Rate Order, EB-2022-0041, Hydro One Remote Communities Inc., March 2, 2023, p. 1.

⁴ OEB Letter, 2025 Inflation Parameters, June 20, 2024.

1 As noted in Exhibit A-03-01, a 0% stretch factor has been applied in the price cap
 2 adjustment formula. The resulting price cap adjustment applied to base rates are shown
 3 in Table 1.

4

5 **Table 1 - Price Cap IR Adjustment Formula**

Component		Amount
Inflation Factor		3.6%
X-Factor	Productivity	0%
	Stretch (0.00% to 0.60%)	0% [1]

[1]: See Exhibit A-03-01 for details

6

7 **3.0 ANNUAL APPROVED ESCALATION OF RRRP AMOUNT**

8 **3.1 CALCULATION OF 2025 RRRP (REMOTES OPERATING) AMOUNT**

9 As indicated above, Remotes operates under a cost-recovery model applied to achieve
 10 an after tax break-even operating result. Any excess or deficiency in RRRP revenues
 11 necessary to break even is added to, or drawn from, the RRRP Variance Account
 12 (RRRPVA).

13

14 In order to lower the balance in the RRRPVA which must be cleared at the time of
 15 rebasing, Remotes has requested to have future RRRP (Remotes Operating) subsidies
 16 adjusted in conjunction with approved IRM customer rate changes during the IRM years.
 17 In the OEB's Decision and Rate Order for Remotes' 2023 rebasing application, the OEB
 18 approved the 2024-2027 Rural or Remote Electricity Rate Protection (RRRP) (Remotes
 19 Operating) annual amount to be escalated by the OEB-approved inflation factor in each
 20 of the ensuing years during the price cap term.⁵ The resulting RRRP amount for 2025 is
 21 shown in Table 2.

⁵ Decision and Rate Order, EB-2022-0041, Hydro One Remote Communities Inc., March 2, 2023, p. 3.

1

Table 2 - 2025 RRRP Amounts (\$000s)

Description	OEB Approved	Inflation Factor	2024 Escalated
Remotes Annual RRRP - Operating Subsidy	48,192 [1]	3.6%	49,927
Remotes Annual RRRP - WPLP Subsidy	119,237 [1]		134,895 [2]
Total Annual RRRP	167,429	-	184,822
Recovery of balance of RRRPVA	1,946 [3]	-	1,946
Total RRRP Level for 2025	169,375	-	186,768

[1]: EB-2023-0031, Decision and Rate Order, March 21, 2024, p. 7, Table 5.1

[2]: Remotes Annual RRRP – WPLP Subsidy currently reflects a placeholder amount reflecting EB-2024-0176, Watay’s 2025 transmission revenue requirement flow-through from Remotes Connection Line (RCL), Exhibit I, Tab 1, Schedule I, Table 2

[3]: Disposition of the December 31, 2021 audited RRRPVA total balance of \$9,732k equally over a five-year term (\$1,946k/year) as outlined in EB-2022-0041, Application, Exhibit H-01-01

2

3

3.2 UPDATED RRRP WITH WATAY TRANSMISSION COSTS

4

In 2016, the provincial government designated Wataynikaneyap Power Limited Partnership (Watay) to construct a transmission (Tx) line to connect 16 remote First Nation communities to the grid, 12 of which are currently served by Remotes and 4 of which are unregulated Independent Power Authorities (IPAs). As such, Remotes is transitioning to a transmission-connected distributor while continuing to provide off-grid electricity generation and distribution, both as primary or prime power and as backup power.

10

11

As described in Exhibit A-03-01, the OEB observed that O. Reg. 442/01 was amended effective July 1, 2016, such that it will “allow RRRP to be used to cover a portion of the costs required to build and operate the lines that would connect remote First Nations communities to the transmission grid”.⁶ Under the amended O. Reg. 442/01, Watay transmission connection costs are a direct flow-through cost for Remotes, which are funded through the RRRP. The cost recovery framework will charge the cost of the transmission facilities to Remotes as a direct expense, where any subsequent revisions

12

13

14

15

16

17

⁶ Decision and Order, EB-2018-0190, April 1, 2019, revised April 29, 2019, p. 9.

1 to Watay's transmission connection costs will be recovered as a flow-through cost in the
2 RRRP.

3

4 Watay's 2025 Electricity Transmission Rates application (EB-2024-0176), currently before
5 the OEB, include \$135M for the transmission connection costs (see Table 2 above).

6 Watay's approved transmission revenue requirement will determine the 2025 RRRP
7 (Watay) amounts for Remotes. During the course of this proceeding, Remotes will update
8 the RRRP to reflect the approved Watay Transmission Costs for 2025.

9

10 **4.0 BILL IMPACTS**

11 Table 3 provides a summary of the 2025 total bill impacts resulting from the proposed
12 2025 distribution rates relative to the approved 2024 distribution rates. The detailed
13 calculation of 2025 monthly bill impacts by rate class over a range of consumption levels
14 is provided in Attachment 1. The bill impacts shown below and in Attachment 1 include
15 updated Ontario Electricity Rebate amounts effective November 1, 2024.

16

17 The impacts of all the proposed rate changes for each customer class based on average
18 consumption do not exceed 10% on total bill, and therefore no bill impact mitigation is
19 required.

1

Table 3 - Summary of Bill Impacts

Consumption (kWh)	Current Bill	Current Bill with HST (includes rebate)	Proposed Bill	Proposed Bill with HST (includes rebate)	\$ Change	\$ Change with HST (includes rebate)	Percentage Change
NON-STANDARD A, RESIDENTIAL YEAR ROUND (R2)

NON STANDARD A YEAR ROUND RESIDENTIAL SERVICE CLASSIFICATION – R2

This classification refers to a residential service that is the principal residence of the customer. This classification may include additional buildings served through the same meter, provided they are not rental income units. To be classed as year round residential, all of the following criteria must be met:

- Occupants must state that this is their principal residence for purposes of the Income Tax Act;
- The occupant must live in this residence for at least 8 months of the year;
- The address of this residence must appear on the occupant's electric bill, driver's licence, credit card invoice, property tax bill, etc.;
- Occupants who are eligible to vote in Provincial or Federal elections must be enumerated for this purpose at the address of this residence.

Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Global Adjustment and the HST.

STREET LIGHTING SERVICE CLASSIFICATION

The energy consumption for street lights is estimated based on Remotes' profile for street lighting load, which provides the amount of time each month that the street lights are operating. Streetlight charges include:

- An energy charge based on installed load, at a rate approved annually (Dollars per kWh x # of fixtures x billing);
- A pole rental charge approved annually, when the light is attached to a Remotes' pole.

Remotes must approve the location of new lighting installations on its poles and the streetlight owner must enter into an agreement to use such poles. Remotes will make the electrical service connection of all streetlights to the distribution system. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

STANDARD A RESIDENTIAL ROAD/RAIL ACCESS SERVICE CLASSIFICATION

Standard A rates are applicable to all accounts paid directly or indirectly out of Federal and/or Provincial government revenue, subject to the following exceptions:

- Canada Post Corporation, Hydro One Inc. or a subsidiary of Hydro One Inc.
- social housing
- a recreational or sports facility
- a radio, television or cable television facility
- a library

Any Standard A account may be reclassified as General Service, Residential Year-Round or Residential-Seasonal at any time. To reclassify a Standard A account, a letter from the accountable Federal and/or Provincial Government agency must be provided to Remotes stating that the account does not receive any direct and/or indirect funding of a continuous nature. An alternative to this letter would be a declaration from a Director of the organization stating that the organization receives no funding. This declaration must be accompanied by an audited statement, which includes the funding source. An example of direct funding is an MTO account paid directly by MTO. An example of indirect funding is a First Nation School account paid by a First Nation through funding by Aboriginal Affairs and Northern Development Canada. Further servicing details are available in the distributor's Conditions of Service.

This classification is applicable to residential customers in communities that are accessible by a year-round road or by rail.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Global Adjustment and the HST.

STANDARD A RESIDENTIAL AIR ACCESS SERVICE CLASSIFICATION

Standard A rates are applicable to all accounts paid directly or indirectly out of Federal and/or Provincial government revenue, subject to the following exceptions:

- Canada Post Corporation, Hydro One Inc. or a subsidiary of Hydro One Inc.
- social housing
- a recreational or sports facility
- a radio, television or cable television facility
- a library

Any Standard A account may be reclassified as General Service, Residential Year-Round or Residential-Seasonal at any time. To reclassify a Standard A account, a letter from the accountable Federal and/or Provincial Government agency must be provided to Remotes stating that the account does not receive any direct and/or indirect funding of a continuous nature. An alternative to this letter would be a declaration from a Director of the organization stating that the organization receives no funding. This declaration must be accompanied by an audited statement, which includes the funding source. An example of direct funding is an MTO account paid directly by MTO. An example of indirect funding is a First Nation School account paid by a First Nation through funding by Indian and Northern Affairs Canada. Further servicing details are available in the distributor's Conditions of Service.

This classification is applicable to residential customers in communities that are not accessible by a year-round road or by rail.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Global Adjustment and the HST.
