Attention: Ms. Nancy Marconi, Registrar (registrar@oeb.ca)

Dear Ms. Marconi:

Re: Evolugen Trading and Marketing LP (the “Applicant”) - Application for Renewal of Electricity Wholesaler Licence EW-2020-0078 (the “Application”) – Additional Information

Today, the Applicant filed the Application using the online portal, however, due to technical limitation of the portal¹, the Applicant was not able to provide full responses to certain questions, as further identified below. To ensure complete and accurate record in the proceeding, the Applicant hereby provides additional information to supplement the Application.

6. Applicant’s Licensing Status and History

(a) Has the applicant, an affiliate of the applicant, or an associated entity (e.g., a partnership or limited partnership), ever been licensed by the OEB?

While the question is answered in the portal, additional relevant information is provided below:

The Brookfield family of companies is a global business with a large number of affiliates undertaking energy sector activities in various jurisdictions globally and within North America. It would be impractical to list all affiliates of the Applicant and associated entities that have ever been licensed by the OEB. In light of the foregoing, the Applicant has used all reasonable efforts to identify and provide the relevant information for its affiliates that (i) directly own or operate electric generation currently or are electricity marketers and (ii) for which one or more of the Key Individuals (described in Sections 7 and 13 below), currently hold officer, manager, or director positions.

(b) Does the applicant, an affiliate of the applicant, or an associated entity (e.g. a partnership or limited partnership) have any other application(s) before the OEB?

While the question is answered in the portal, additional relevant information is provided below:
