Dear Mike Packer:

**Re: London Hydro Inc. (London Hydro)
Proposed Addendum to the Approved Settlement Proposal for the 2022
Cost of Service Application (EB-2021-0041)
Ontario Energy Board File Number: EB-2025-0085**

On February 10, 2025, London Hydro filed an application with the OEB seeking approval for a proposed addendum to the settlement proposal that was approved by the OEB on February 24, 2022, in London Hydro's last cost of service application (EB-2021-0041).

As part of that approved settlement, London Hydro was authorized under s. 71(4) of the *Ontario Energy Board Act, 1998* to continue providing certain Green Button-related services until April 30, 2025. Under the proposed addendum, that approval would be extended to April 30, 2027, but only for three customers.

The proposed addendum would also establish a Green Button Net Revenue Deferral Account, which would track the net revenue from the three customers for the calendar years 2025 and 2026, with 60% of that net revenue to be disposed of to the credit of ratepayers in London Hydro's next cost of service proceeding.

The application states that all the intervenors who participated in the settlement conference and either supported or took no position on the original settlement have agreed to the proposed addendum. Given that agreement, the OEB is considering whether to deal with the application on an expedited basis, without a hearing, pursuant to s. 21(4)(b) of the Act.

Before proceeding further, the OEB requires London Hydro to respond to the following

by March 24, 2025:

- a) Please confirm that London Hydro consents to disposing of the proceeding without a hearing under s. 21(4)(b).
- b) The application states that it is filed “on behalf of all the parties” to the original settlement proposal, however, it appears that the application was not copied to those parties. Please file evidence confirming that all parties to the original settlement proposal have agreed to the proposed addendum.
- c) Please confirm that London Hydro, in its Accounting Order for Green Button Net Revenue Deferral Account, agrees to replace the general account number XXXX with Account number 1508, since this utility-specific deferral account will be under Account 1508.

Please direct any questions relating to this application to the Case Manager, Tyler Davids, at 416-440-7704 or tyler.davids@oeb.ca.

Yours truly,

Nancy Marconi
Registrar

c. All parties to EB-2021-0041
