Dear Ms. Marconi,

EB-2024-0300 – OEB Proposed RSC & SSSC Amendments to Support IESO Market Renewal Program – Hydro One Networks Inc.’s Comments

On March 11, the Ontario Energy Board (“OEB”) issued a Notice of Proposal to amend the Retail Settlement Code and Standard Supply Service Code to facilitate implementation of the Independent Electricity System Operator’s (IESO) Market Renewal Program.

Hydro One Networks Inc. (“Hydro One”) supports the proposed amendments but believes that for consistency purposes, the OEB should clarify what terminology should be used by distributors to refer to the new hourly Ontario electricity price, which will be the sum of the IESO’s new Day-Ahead Market Ontario Zonal Price and the Load Forecast Deviation Adjustment, on customer invoices and for settlement purposes. Specifically, Hydro One would like to confirm if distributors can continue to use the term “Hourly Ontario Electricity Price” or if a new convention should be used to reflect and reference the new calculation for the electricity price.

An electronic copy of these comments has been submitted using the Board’s Regulatory Electronic Submission System.

If you have any additional questions regarding Hydro One’s comments or would like to discuss these comments in further detail, please contact Hydro One’s Regulatory Affairs team by email at Regulatory@hydroone.com.

Sincerely,

Jason Savulak
