Dear Richard Bucknall:

Re: EB-2024-0059 Wellington North Power Inc. Application for 2025 Rates

The Ontario Energy Board (OEB) provided a draft Decision and Rate Order and a draft Tariff of Rates and Charges in relation to the above-noted proceeding on February 26, 2025. On March 3, 2025, in its comments on the drafts, Wellington North Power Inc. (Wellington North Power) proposed the following necessary changes:

1. In Section "7. Group 1 Deferral and Variance Accounts" (page 9) of the draft Decision and Rate Order, the monthly Global Adjustment (GA) and Capacity Based Recovery (CBR) Class B amounts be revised from \$14.54 and \$13.92 to \$14.49 and \$13.89, respectively.
2. In the same section, the GA and CBR Class B one-time charges also be updated to \$173.88 and \$166.64, respectively.

Wellington North Power noted the need for such changes being due to the fact that the GA and CBR Class B amounts and charges in the draft Decision and Rate Order did not reflect the OEB's Q1 2025 prescribed accounting interest rate. Wellington North Power confirmed that the Rate Generator Model was correct and required no changes.

The OEB has approved and incorporated the changes as proposed by Wellington North Power into the final Decision and Rate Order. Footnote No. 14 has been added to reference the letter received on March 3, 2025, requesting the aforementioned changes.

The OEB has now issued a final Decision and Rate Order, together with a final Tariff of Rates and Charges. Copies of these documents are enclosed with this letter.

Yours truly,

Nancy Marconi
Registrar
