SCHEDULE 3 LIST OF CODE EXEMPTIONS

This Schedule specifies any specific Code requirements from which the Licensee has been exempted.

1. The Licensee is exempt from the provisions of the Standard Supply Service Code requiring standard time-of-use pricing or, if the consumer so elects, ultra-low overnight time-of-use pricing for Regulated Price Plan consumers with eligible time-of-use meters (namely, sections 3.2.6, 3.4, 3.4A, 3.4B and 3.5). This exemption applies only for service to the approximately 89,000 "hard-to-reach customers" who, as of January 1, 2025 and as per Decision and Order EB-2025-0076, are outside the reach of the Licensee's smart meter telecommunications infrastructure and demonstrate consistently unreliable meter communication resulting in billing errors, and new hard-to-reach customers who are connected to the Licensee's service area during the exemption period. This exemption expires December 31, 2029. If, during the exemption period, a previously hard-to-reach customer comes within the effective coverage area of the Licensee's smart meter telecommunications infrastructure, the Licensee must as soon as practicable provide the customer with the option of electing standard time-of-use, ultra-low overnight time-of-use or tiered prices and begin charging the customer based on the customer's election or, if no election is made, based on standard time-of-use prices.

2. As per the Board's Decision and Order in EB-2011-0067, for generation facilities for which the primary energy source is water with a capacity not exceeding 10 megawatts and that are located on provincial Crown or federally-regulated lands and for which the electrical connection is to the distribution system owned by Hydro One Networks Inc. ("Hydro One"), Hydro One shall be exempted from the current connection cost deposit stipulated in s. 6.2.18(a) of the Distribution System Code (the "DSC") and shall, instead, adhere to the following schedule:
 - (a) \$20,000 per MW of capacity shall be paid by the proponent to Hydro One upon the execution of the Connection Cost Agreement.
 - (b) An additional deposit in the amount of 30% of the total estimated cost, as estimated by Hydro One, less the amount received by Hydro One under paragraph (a) above, shall be paid by the proponent to Hydro One no later than 6 months after the proponent notifies Hydro One that it has issued its statement of completion under the earlier of the Waterpower Class Environmental Assessment and the equivalent environmental assessment process under the Canadian Environmental Assessment Act.
 - (c) No later than 180 days after Hydro One receives payment of the amount referenced in paragraph (b) above, Hydro One shall provide to the proponent a construction schedule and a more accurate estimate of the project cost, if such estimate is requested and paid for by the proponent. The payment for the estimate shall be drawn from the deposit to the extent possible.
 - (d) The balance of the total estimated cost, as estimated by Hydro One based upon the best available information, shall be paid by the proponent to Hydro One no later than 30 days after the proponent notifies Hydro One that it has received the last of its necessary construction approval permits under Ontario's Lakes and Rivers Improvement Act or the Dominion Water Power Act.
 - (e) Hydro One and the proponent shall mutually agree upon an in-service date that is no later than 2 years after Hydro One receives the balance referenced in paragraph (d), above, subject to the following: in cases where a transmission upgrade or new transmission facilities are required, Hydro One and the proponent may agree to an in-service date that is later than two years after Hydro One receives the balance referenced in paragraph (d), above.

- (f) The Expansion Deposit, as stipulated by Section 3.2.20 of the DSC, shall be paid to Hydro One at the same time as the payment in paragraph (d).

Notwithstanding the foregoing, if at any time the above-noted payments to Hydro One are insufficient to cover Hydro One's costs as estimated by Hydro One, the proponent shall pay, to Hydro One, additional funding sufficient to meet the shortfall identified by Hydro One, and Hydro One shall be relieved of its obligation to perform such further work until it receives the said additional funding.

3. The Licensee is exempt from the provisions of sections 2.10.1 and 7.11.1 to 7.11.7 of the Distribution System Code, limiting the use of estimated billing and requiring billing accuracy. This exemption applies only for service to approximately 89,000 of the identified hard-to-reach customers who, as of January 1, 2025 and as per Decision and Order EB-2025-0076, are outside the reach of the Licensee's smart meter telecommunications infrastructure, demonstrate consistently unreliable meter communication resulting in billing errors, and new hard-to-reach customers who are projected to be connected to Hydro One's service area during the requested exemption period. This exemption expires December 31, 2029.
4. The Licensee is exempt from the requirements in sections 2.6.1A and 2.10.2 of the Distribution System Code related to billing frequency and limiting the number of estimated bills that may be issued to two, on annual basis, to customers in the seasonal rate class who are being transitioned to one of three other Hydro One residential rate classes according to their respective density pursuant to the Board's November 10, 2021 decision on implementing the elimination of the seasonal rate class (EB-2020-0246). These exemptions expire on December 31, 2027, as per the Board's Decision and Order in EB-2022-0145.
5. The Licensee is exempt from section 3.5.11 of the Standard Supply Service Code and sections 2.6 and 10.6.3 of the Retail Settlement Code, in respect to its distribution service to the Township of Chapleau, as per the Board's Decision and Order in EB-2023-0328. 3. Pass Through of Rebate

- c embedded distributors to whom the distributor distributes electricity.

The amounts paid out to the recipients listed above shall be based on energy consumed and calculated in accordance with the rules set out in the Retail Settlement Code. These payments may be made by way of set off at the option of the distributor.

If requested in writing by OPGI, the distributor shall ensure that all rebates are identified as coming from OPGI in the following form on or with each applicable bill or settlement statement:

Any rebate amount which cannot be distributed as provided above or which is returned by a retailer to the distributor in accordance with its licence shall be promptly returned to the host distributor or IESO as applicable, together with interest at the Prime Rate, calculated and accrued daily, on such amount from the date of receipt.

Nothing shall preclude an agreement whereby a consumer assigns the benefit of a rebate payment to a retailer or another party.

Pending pass-through or return to the IESO of any rebate received, the distributor shall hold the funds received in trust for the beneficiaries thereof in a segregated account.

ONTARIO POWER GENERATION INC. REBATES

“embedded distributor” means a distributor who is not a market participant and to whom a host distributor distributes electricity;
