Ontario Energy Board

Dear Ms. Marconi:

Re: Atikokan Hydro Inc. Cost of Service, EB-2024-0008  
Distribution Rate Application for Rates Effective May 1, 2025  
Reply Submission on Draft Rate Order

The Ontario Energy Board (OEB) approved Atikokan Hydro's settlement proposal and directed the utility to file a draft rate order by April 7, 2025. The draft order was required to include the proposed Tariff of Rates and Charges and supporting documentation to reflect the decision in the cost of capital generic proceeding dated March 27, 2025. Intervenor and OEB staff were given until April 14, 2025 to provide comments on the draft rate order.

Following the filing of the DRO, both VECC and OEB staff provided comments identifying an error with the cost allocation filed; the status quo revenue to cost ratios changed slightly.

Atikokan has updated the proposed Tariff of Rates and Charges and other supporting documentation and has revised the draft rate order pursuant to the comments filed by VECC and OEB Staff. The revision as filed today aligns with the settlement proposal revenue to cost approved by the board. The DVA Continuity schedule has also been updated with the DRO distribution revenue to allocate Group 2 DVA balances and Appendix 2-OA of the Chapter 2 Appendices has been updated to match the Revenue Requirement Work Form.

Sincerely,
